100 REPORTED DEAD IN STORM-SWEPT FLORIDA KEYS; FIVE SHIPS STANDING BY GROUNDED STEAMSHIP DIXIE

PLAN ANNOUNCED AFTER HULL SAYS IT'S WAR THREAT

Selassie Defends Right
To Make Grants Within
Country; Censorship Is
Threatened If Mislead-
ing Dispatches Continue

CONCESSIONS TAKE NOTICE OF TREATY

Haile Reiterates Stand
That Great Britain Is
Not Involved by Move;
King's Sword to Front.

WASHINGTON, Sept. 3.—(AP)—Secretary Hull announced tonight that as a result of discussions he had with Standard Oil Company officials, they had informed him they would withdraw from the concessions secured from Emperor Haile Selassie to develop more than half his Ethiopian kingdom.

Hull said that H. Dundas, vice president, and George S. Walden, chairman of the board of Standard Oil Company, had informed the State Department this morning that their corporation owned the concession granted by the emperor to the African Exploration and Development Company.

After discussing the question with Wallace Murray, chief of the near eastern division, the two officials conferred with Hull.

Obstacle to Peace.

He informed them, he told news- men, that the granting of the concession at this time was a serious obstacle to the maintenance of peace and might have extremely serious repercussions.

Dundas and Walden returned to New York and late today informed Hull that, after consultation with their associates, they were prepared to terminate their part of the concession and that their representatives would inform Emperor Selassie that they did not desire to go forward with the concession.

Hull said his first knowledge that the Standard Oil Company was owner of the concession came this morning, when Dundas and Murray conferred with him.

Hull's Statement.

Immediately after making his announcement to the press, Secretary Hull issued the following statement: "Mr. George S. Walden and Mr. H. Dundas, chairman of the board and vice president respectively, of the Standard Oil Company, called on September 3, 1935, to make known that their company is the owner of an extensive oil concession granted by the emperor of Ethiopia on August 29 last to the African Exploration and Development Company, a subsidiary of the Standard Oil Company, and to seek the department's advice on the situation created by the grant."

"The officials of the above mentioned company were informed that the granting of this concession had been the cause of great embarrassment not only to this government but to other governments who are making strenuous and sincere efforts for the preservation of peace."

"In the circumstances, the company officials were informed of the views of the United States government."

Highlights of News In Ethiopian Crisis

By the Associated Press.

Withdrawal from its Ethiopian concessions was announced by Standard Oil Company after a conference with Secretary of State Hull who characterized the concessions as a "threat to peace."

The day's developments: WASHINGTON—Secretary Hull announced Standard Oil Company officials have ordered representatives to inform Selassie they will not proceed with their oil concessions project in a co-operative effort to maintain peace.

GENEVA—Premier Laval declined to sign with Anthony Eden, of Britain.

U. S. ROAD LETTER REACHES WILBURN; END OF ROW SEEN

Contents Not Disclosed,
But Bureau Understood
To Have Withdrawn 2
Demands Rejected Here

The letter from Acting Secretary of Agriculture Rexford G. Tugwell, designed to end the Georgia highway controversy, reached Chairman W. E. Wilburn, of the State Highway Board yesterday, and was received by that official without comment.

In the letter, written by Tugwell in the absence of Secretary of Agriculture Wallace who is due to visit Georgia later in the week, the Federal Bureau of Public Roads is understood to have withdrawn two demands it made recently on the highway board and which were rejected by that body. Three other demands made in the original letter from the bureau were accepted by Chairman Wilburn and his colleagues, Max L. McKee, of McKee, and John A. Heck, of Marietta.

Advisers from Washington before the letter was mailed Saturday said that the chief of the federal bureau, Thomas H. MacDonald, had decided to withdraw the two demands objectionable to the highway board. This decision came after a conference between MacDonald and Charles N. Sneed, of Montgomery, the federal bureau's representative in Georgia, who is in charge of supervising Georgia projects.

Congressman Carl Vinson, of Milledgeville, who played an important role early in the controversy because of his insistence on the Ball's Ferry bridge project, which has been rejected by the highway board, also was instrumental in getting MacDonald to agree to settlement of the controversy.

Chairman Wilburn said yesterday that the letter had arrived and that he had had it under consideration. It was understood that after he read the missive that he passed it on to Judge McKee and Commissioner Heck, who both read it individually, but that there was no meeting on the matter. The chairman said that there probably would be a meeting to discuss the situation today.

The board received a number of delegations during the day and this was given as the reason for the fact that no meeting was held to discuss the Tugwell letter.

In some quarters it also was understood that the board did not want to take the matter during the absence of Governor Talmadge from the state.

MINORITY FACTION TO DEMAND ACTION ON JURY'S REPORT

County Board Showdown
on Grand Jury Recom-
mendations Due Today
as Commissioners Meet.

Action on the recommendations of the July-August grand jury will be demanded today by the minority faction at the regular meeting of the county commission, at the September-October grand jury prepares for another exhaustive investigation of all phases of county affairs.

The grand jury, headed by Commissioner George F. Longino and Commissioner J. A. Ragsdale, who comprise the minority faction of the county board, said yesterday they will back a resolution at the meeting this afternoon seeking to force the majority bloc to adopt the economy recommendations of the July-August grand jury.

Ragsdale, in a letter to The Constitution yesterday, set forth his views about county affairs and stated that if he could not remain in office without violating his sense of duty and the principles upon which he campaigned, then he would retire—implying that the majority faction had broken faith with the voters who elected the county commission.

The session this afternoon is expected to be a stormy one. Though the majority faction has not definitely stated what position it will take regarding the recommendations of the grand jury, it is commonly known that the three will oppose the recommendations in most instances.

The grand jury, headed by George W. McCarthy, foreman, and R. L. Barge, secretary, found facts which they said substantiated the charges of long-time neglect of the county which is wrecking the county through unemployment.

2-MONTH DEFICIT IS 662 MILLION

Ready Money in Wash-
ington Vaults Dwindles
to Little Over Billion.

WASHINGTON, Sept. 3.—(AP)—Collecting 46 cents for every dollar spent, the treasury today reported a \$662,594,078 deficit for the first two months of the financial year.

To cover this difference between income and outlay it borrowed \$334,000,000 and dipped into its cash on hand to the extent of \$328,000,000. This reduced the ready money in its vaults to \$1,353,000,000. Big as this was, this sum ranked small by comparison with the amount usually carried, especially since an estimated \$400,000,000 was " earmarked" for retiring national bank notes.

To build up its working funds, the treasury made a Labor Day announcement of an intention to borrow \$200,000,000 on 3 1/2-year bonds bearing 1 1/2 per cent interest, a transaction supplementing an offer of new bonds to be exchanged for the \$1,250,000,000 of fourth Liberty bonds called for redemption October 15.

As with the numerous such exchanges of recent months a considerable saving in interest payments was expected. The liberties yield 4 per cent.

Many on Relief Like Tumble Weed

By IRVIN S. COBB.
SANTA MARIA, Cal., Sept. 3.—This is a favorite sport of entry for the unemployed, who pour in by the thousands looking for manna in the wilderness. If we're out of manna they'll take sarsaparilla.

There are many pitiable cases among these newcomers, also plenty of others who want to go on relief naturally, that I had a blown fire at a speed of more than 250 miles an hour, and lived to tell the story. Needless to say, I consider the Bonneville salt beds the world's greatest speed course.

For years I have been making world land speed records. I have driven all over the world, but this is the first time I ever have driven on salt. Vision an illimitable field of salt, not the fine salt of the dinner table, but a firm, hard sheet of the consistency of winter ice and looking like nothing so much as ice.

On Labor Day, I made an easy test run of 238 miles an hour, so that I knew how the surface of the course would be.

372 Lives in Hands of Grounded Ship's Chief

Captain Einar William Sundstrom, master of the Morgan Line ship Dixie, which hit a reef off the Florida coast early Tuesday morning, imperiling the lives of 372 persons aboard the ship.

COUNCIL APPROVES BOND ISSUE DRIVE STREET FUND PLAN IS GIVEN IMPETUS

Committee Named To
Seek \$2,000,000 of Geo-
gia's U. S. Road Money.

City council yesterday authorized a move to secure \$2,000,000 in federal highway funds for improvements to streets and bridges in Atlanta.

Unanimous approval was given to a resolution, of which Councilman John A. White, fourth ward, was author, to establish a special committee composed of Mayor Key, Councilman Aubrey Millican, chairman of council's finance committee, and Clarke Donaldson, chairman of the city's public works committee, to study the Georgia U. S. Road Money.

It was pointed out that the \$19,000,000 fund coming to Georgia for the purpose of improving streets and bridges was voted by Congress and given approval by President Roosevelt with distinct understanding that 25 per cent of the sums going to the various states would be expended in incorporated municipalities.

Following a report by Mayor Pro Tem Ed A. Gilliam that WPA has turned down Atlanta's request for \$400,000 to enlarge and reconstruct filter basins at the waterworks and that PWA is the only governmental agency open to the city, White proposed refunding of city bonds to provide building operations totaling from \$10,000,000 to \$12,000,000 here within the next few months.

Gilliam asserted the city would be expected to provide about \$200,000 of the fund needed for the waterworks improvements under PWA, and that he had communicated with Atlanta banks concerning the matter.

Willing to Lend Money.

"The banks are willing to lend the city the money to be repaid over a five-year period at 4 per cent interest," Gilliam said. "I don't know what we can do about it, however. It is up to you."

At this juncture, White obtained the floor to inform council the federal authorities are ready to remodel and reconstruct the old auditorium scenery at a cost of \$90,000 if the city will expend \$10,000 for materials.

"We should refund at least \$500,000 worth of city bonds as soon as we can and start a building program of our own."

ROOSEVELT GIVES FLORIDA 5 MILLION TO START ON CANAL

Sea-Level Channel Will
Provide Shorter and
Safer Route; Total Cost
Is \$146,000,000.

WASHINGTON, Sept. 3.—(AP)—President Roosevelt allocated \$5,000,000 today to begin work on the \$146,000,000 Florida ship canal, described by army engineers as "the largest single waterway project ever undertaken on the United States mainland."

The National Emergency Council said the sea-level channel would provide a shorter and safer route for ocean-going vessels between the Atlantic and Gulf of Mexico.

By opening this waterway across the peninsula, officials said, the long swing around the Florida keys would be obviated and shipping saved \$7,500,000 annually. The time to be trimmed on each sailing between the Atlantic and Gulf was estimated as high as two and one-half days.

Engineers Speed.

The President's allotment was to the army engineers who immediately named Lieutenant Colonel Braham Somervell as chief of the project. Somervell will leave tomorrow for Jacksonville, Fla., and the work was expected to start at once. The engineers said project headquarters will be at Ocala, Fla.

Referring to the contemplated operations as "preliminary work," the NEC said the \$5,000,000 would be divided as follows: Clearing right-of-way \$2,500,000; housing, shops, shorehouses and minor structures \$500,000; and bridge foundations \$500,000.

Senator Fletcher, democrat, Florida, announced he will urge additional allocation of funds as fast as the War Department can usefully expend them, and that these expenditures "should amount to at least \$20,000,000 additional."

DIXIE BOARDS ASK I. C. C. RATE PROBE

Utility Commissions of
Six States Seek Cut in
Hauling Costs in South.

Public utility commissions of six southern states implored the Interstate Commerce Commission yesterday to lower the freight rate structure of the south and remove alleged discriminations.

Representatives of state regulatory boards and shipping interests presented a united front for a revision in class freight rates at a conference sponsored here by the Georgia Public Service Commission.

States represented besides Georgia were Florida, Tennessee, Virginia, North Carolina and South Carolina. The people of West Virginia were asked to withdraw their request for tariff pending outcome of yesterday's move. W. S. Campfield, secretary of the Virginia State Horticultural Society, was asked to convey the request.

I. C. C. Probe Requested.

By resolution the conference called upon the I. C. C. to institute an investigation of southern rates, which Chairman Jud P. Wilhoit, of the Georgia P. S. C., said range from 18 to 27 per cent higher than in eastern territory. The resolution asked the I. C. C. to conduct the probe on its own motion "to remove the undue burden now resting on southern shipping interests."

Wilhoit was instructed to name an executive committee of 10 commissioners and 10 shippers to promote the investigation and determine ways and means of prosecuting it. He said he would announce the appointments later.

The plan of action followed a motion by Wilhoit.

Grounding Blamed On Texas Washout

NEW YORK, Sept. 3.—(UP)—A washout in Texas that delayed a Southern Pacific train six hours indirectly was responsible for grounding the Morgan (Southern Pacific) liner Dixie off Florida today, Morgan Line officials revealed tonight.

The Dixie was scheduled to sail from New Orleans at 11 a. m. Saturday. She waited until 5:55 p. m. for arrival of the train, carrying several passengers for the ship. It had been held up by a washout near Sanders, Texas.

Had the Dixie sailed on time, she probably would have been 75 miles north of French reef when the hurricane struck.

301 M. P. H. RECORD
SET BY CAMPBELL
ON UTAH SALT BED

British Speed King Hits
Amazing Mark of 304.311
To Set Official Land
Mark in Thrilling Ride.

BONNEVILLE SALT FLATS, Utah, Sept. 3.—(AP)—Sir Malcolm Campbell, British land speed ace, thundered past an official record of 300 miles an hour in his six-ton Bluebird on the salt flats of Utah today, an official corrective announcement disclosed tonight.

In one of the most startling reversals in the history of speed racing, the American Automobile Association, contest board said Sir Malcolm had actually averaged 301.33 miles per hour instead of 299.875-mile clip with which he was credited for the two-way run.

It brought delight to the 50-year-old "human bullet."

"I will leave immediately for New York, to sail September 12 for London," he said.

The change in time that brought the titled Englishman the 5-mile-a-minute or better record was announced after a conference among A. A. A. officials. The error was in the computation of figures taken from the timing tape.

The tape, it was said, showed the error of one one-hundredths of a second in subtraction.

The error caused Sir Malcolm to be credited with 295.566 miles per hour on the second run.

Hits Top of 304.311.

Actually, he roared down the salt roadbed on his second trial at a speed of 308.013, according to revised figures, after an initial run of 304.311.

T. E. Allen, secretary of the contest board of the association, issued the following statement:

"The run northward over the measured mile was made in 11.82 seconds. The trip southward was actually made in 12.08 seconds instead of the 12.18 seconds he was credited with."

Out Hampering Check.

TAVERNIER RAZED
AT STORM'S HEIGHT

Liner Reports 'All Well';
Rescue Vessels Await
Calmer Weather Before
Removing Passengers.

MIAMI, Fla., Sept. 3.—(AP)—Leaving more than 100 reported dead in its path through the Florida Keys, a tropical hurricane tonight swept northward along the west coast and lashed the resort city of St. Petersburg and Tampa.

As the storm, reported by a 100-mile an hour velocity at Boca Grande, south of St. Petersburg, whipped into Tampa Bay, two fishermen were reported missing in the gulf and distress flares were seen in the stormy sky out in the gulf.

Dixie Rescue Held Up.

The coastwise steamer Dixie, operating from New Orleans to New York which went aground in the storm some 60 miles south of Tampa, was taking a beating of the waves as rescue ships awaited abatement of the pounding waters to take off passengers and crew.

Most of the communities along the Tampa Bay and gulf waterfront were evacuated late today but grave fears were felt for several thousand persons who usually live in exposed places.

With the hurricane winds at St. Petersburg came torrents of rain and most of the city where thousands spent their winters basking in the sunshine was in darkness. Few persons ventured outside the buildings.

Waterfront sections of the city were reported flooded.

The Miami headquarters of the coast guard had received a report 75 war veterans building, a long highway along the keys had been killed as the hurricane passed the east coast last night. Three bodies were recovered at Tavernier, on one of the keys and brought here.

The Key West navy yard radioed coast guard headquarters here that all aboard the stranded veterans' rescue train were reported safe and that attempts were being made to reach the train from the mainland. The report did not say how many were on the train.

Governor Dave Sholtz at Tallahassee ordered a company of national guardsmen mobilized at Miami to proceed into the storm-damaged area at once. He said the guardsmen were to give aid and possible police protection to the stricken communities to prevent looting.

Storm-battered refugees, braving the tossing waters of Snake creek in small boats, came in tonight and variously fixed at 25 to 100 the death toll in Veterans' Camp No. 1 on Upper Matecumbe Key.

Three Bodies Recovered.

Tavernier and Ed Kettner, a bus driver, were recovered.

RECKLESS AUTO DRIVER HIT BY JUDGE PERSONS

**Jurists Tells Lamar Body
Fatalities May Reach New
High Peak.**

BARNESVILLE, Ga., Sept. 3.—Declaring that he believed the mortality from the carelessness of automobile drivers would reach a new high peak this year in the United States, Judge Ogden Persons, of the Flint circuit, opened superior court here and delivered a forceful charge to the Lamar county grand jury.

The judge also stated he believed times are better and that people are getting on a surer foundation.

In rapping the careless auto driver he said: "I believe the mortality from automobile use this year will be the greatest in the history of the United States, which will mean more than 25,000 people will be killed by some body's carelessness in the use of automobiles, and a million people injured, many of whom will become burdens and charges upon those of their family who are still able to carry on and make a living."

"I think it becomes the duty of this grand jury, and every other grand jury, to strictly enforce what few and imperfect automobile laws we have, and I think it is the duty of the judge, when the grand jury indicts and the trial jury convicts, to impose punishment upon those violators that will perhaps make an example and try to put more fear, if not more sense, into the minds of those who are guilty of the abuse of the automobile."

Addressing the jury further on general topics, Judge Persons continued: "I believe that conditions at this

Old Dog at Greenville Pays for His Own Meat

GREENVILLE, Ga., Sept. 3.—

Scott's owner, Edgar Smith, retired him from the sedge-grown hunting fields two years ago—Scott is 16 now—but the dog still pays his board.

Smith runs a store and Scott runs errands. The dog is a safe messenger for packages or papers between his master's store and home. But his best accomplishment is shopping in the meat market down the street. Every day some friend hands the dog a nickel to see him trot to the butcher's and buy him his coin for a handful of meat scraps.

Some days his friend's generosity threatens his digestion because as much as 50 cents worth of meat is a lot for an old dog.

time are more hopeful to the average individual in this country than we were perhaps when you were here the last time. There is less spirit of panic or fear in the mind of the average citizen.

"Our people are getting upon a better and surer foundation economically than they were before, or else we would not have this trend of business strength and growth that we now witness, and which we all hope will be permanent in its nature."

**GANDHI ADDS SPINACH
TO MILK AND FRUIT DIET**

CALCUTTA, Sept. 3.—(AP)—Apparently tired of goat's milk and fruit, on which he has lived for years, the Mahatma Gandhi is trying out a new diet.

He is experimenting with leafy vegetables and says he feels very fit.

BOND ISSUE CAMPAIGN GIVEN FRESH IMPETUS

Continued From First Page.

ed the floor of city council by unanimous action, and delivered a strong appeal for support for the bond issue.

"This bond issue will be ratified overwhelmingly if the politicians in this town will work as hard for it as they did for their own elections," he told council.

"We are given the greatest opportunity we have ever had in Atlanta in this bond issue proposal. In addition to getting \$1,000,000 worth of completed school improvements, I believe the government will complete the sewer program no matter what the cost is, and we are asked to contribute only \$1,775,000 of the cost.

Repairs Cost \$800,000 Yearly.
"Interest and sinking fund for amortization of the issue will amount to about \$800,000 a year. We are now expending from \$600,000 to \$800,000 a year in makeshift sewer repairs. We can divert that fund to amortization of the bonds, and we will have little in addition to pay to make up the \$800,000.

"Next year, the \$400,000 which we are now expending each month for relief will be reduced materially because there will be more jobs for people, and they will not be on relief. We can divert a part of that to pay the rest of the \$800,000.

If the people of this city knew the condition of the sewers and the good which the \$1,000,000 will do the schools, there would not be a single dissenting vote cast against the issue.

"How we have ever escaped pestilence and epidemics of disease is a mystery to me. Something must be done. If we fail to vote the bonds, we will lose federal appropriations. That means we will have to bear all the expense later and not much later at that. Let's put these bonds over for the biggest day's work for the civic health and economic interests of the city that we have ever been able to do."

White Offers Resolution.
Councilman John A. White was author of the resolution putting city council unanimously on record by a standing vote behind Milligan and the bond campaign.

There will be 1,000 votes against the bond issue in the entire city," White told city council.

Alderman J. Glover Hailey was author of the resolution assuring city employees their salaries will not be cut to pay interest and sinking funds for amortization of the bonds.

The meeting of the executive board of the women's organization was held at bond campaign headquarters, 52 Broad street.

James H. Ewing, general chairman of the bond campaign; Mrs. George Ripley, co-chairman and president of the women's federation, and Maddox made short addresses.

"I measure my words when I tell you ladies," Maddox said in addressing the executive members, "this bond issue is the most important civic matter that has come before our people in 25 years."

"It was during my administration as mayor that Atlanta made its first beginning in purification of sewage. Bonds for that purpose were voted by the people, trunk sewers were built, and three purification plants were constructed. That beginning was a good one, but it was not an adequate beginning."

"See the world's greatest invention. The Photomatic takes, develops and frames your picture in 25 seconds. Peachtree Arcade Lobby."

Police Probe Mysterious Shooting in Office Here

Police last night were investigating the mysterious firing of a rifle bullet into the office of Rawson-Morrill, Inc., on the tenth floor of the Exchange building at Exchange place and Ivy street.

Charles A. Rawson, a member of the firm and former president of the Eckford Advertising Agency, reported the occurrence to police. Detective J. L. Whitley, who investigated, said the bullet, which broke two windows, appeared to have been fired from a level with the Rawson-Morrill offices.

Police were unable to explain the shooting and it was believed to have occurred about 4:30 o'clock yesterday afternoon.

"Since that time Atlanta's population has more than doubled, but since that time we have not enlarged the disposal plants, or built additional plants, and the result of our negligence is that every stream surrounding Atlanta is filled with pollution."

Health Menace.
"For many years I have had the honor to serve as president of the State Board of Health and this condition has frequently been brought to our attention, officially. There is no single health menace in Georgia, in my opinion, as great or as serious as the menace created by stream pollution around Atlanta. The fact that we have escaped an epidemic is almost a miracle."

"We cannot any longer postpone this condition or gloss it over. Atlanta cannot any longer defend or postpone injunctive suits and damage suits brought against the city in the courts. We have simply got to build the necessary trunk sewers, and necessary disposal plants, whether we want to or not, or whether we think we can afford it or not."

"We can do the work now with federal aid, amounting almost to five dollars for our one, and this opportunity will never come again. Not to take advantage of it would be disastrous folly, because the only alternative would then be to levy an emergency tax, which would run for years."

Women at Meeting.
Among the women attending the meeting were Mrs. R. Murdoch Walker, immediate past president of the federation; Mrs. J. N. Brawner, Mrs. C. W. Heery, Mrs. Heywood Heyman, Mrs. Norman Sharp, Mrs. William J. Perry, Mrs. Charles L. Haden, Mrs. A. R. Colcord, Mrs. Raymond Wolfe, Mrs. E. V. Carter, Mrs. Ed Almond, Mrs. S. F. Boykin, Mrs. W. D. Williamson and Mrs. W. F. Dykes.

The resolution adopted follows: "Be it resolved, by the executive board of the Atlanta Federation of Women's Clubs, that:

"1. We endorse the proposed bond issue by the city of Atlanta, to be voted upon by the people in a special bond election September 18.

"2. We are convinced of the absolute necessity for sewers and sewage disposal plants to stop the pollution of streams around Atlanta, which is a menace to the health of the entire community.

"3. We are convinced that this opportunity, not only to build sewers and disposal plants, but also to build schoolhouses, with federal aid amounting almost to five dollars for each dollar expended by the city, will never come again, and that we should take advantage of it.

"4. We request the women represented in the Atlanta Federation of Women's Clubs to register at once, if they are not now registered, and to vote for bonds on September 18."

**LANGDALE DEDICATES
MEMORIAL SCHOOL**

WEST POINT, Ga., Sept. 3.—(AP)—With more than 1,000 persons attending, the new LaFayette Lanier Jr. high school, dedicated as the fall term began yesterday.

The new plant, erected at a cost of \$875,000, replaced the building burned last spring.

The dedication exercises were held in Sears memorial hall in Langdale. Superintendent W. T. Draper, of Langdale school, directing.

Addresses were made by Grady Bradshaw, Boy Scout executive; John W. Johnson, representing Langdale merchants; Superintendent G. M. Barnett, of Chambers county, Alabama, schools; and Rev. Marvin Swilling, of the First Methodist church.

Erwin R. Lehmann, superintendent of the Langdale Cotton Mill, tendered the key to the building to the school board.

The late LaFayette Lanier Jr. was chairman of the Chambers County Board of Education for many years.

**MITCHELLVILLE SEES
MANY STORE CHANGES**

MITCHELLVILLE, Ga., Sept. 3.—The opening of fall business here will find many changes in the downtown section. During the summer a number of business houses have changed their locations, some have renovated their old locations, and extensive additions have been made in some cases.

One of the most noticeable changes in the downtown section has been the tearing down of the old Baldwin county jail on North Wilkinson street.

**SCHOOL BOND ISSUE
VOTED AT LAFAYETTE**

LAFAYETTE, Ga., Sept. 3.—(AP)—By a vote of 348 to 25, voters of the Lafayette school district today approved a \$200,000 bond issue to match a federal grant for the erection of a \$400,000 grammar school building.

The construction of this new building will give Lafayette three educational plants to care for its 1,200 students.

STATE BRIEFS

Church Calls Pastor.
MACON, Ga., Sept. 3.—(AP)—Rev. H. G. Fisher, of Alamance, N. C., has been called as pastor of the Lutheran Church of the Redeemer here.

Graduates Accept Posts.
ATHENS, Ga., Sept. 3.—(AP)—Miss Mary M. Newell, of Gainesville and Atlanta, a member of the 1935 graduating class of the School of Journalism at University of Georgia, has accepted a position as director of play production with the American Education Company. Miss Sadie Myers, of LaFayette and Athens, a member of the journalism class of 1931, has accepted a post with the Department of Labor in Washington.

Marietta Plans Fair.
MARIETTA, Ga., Sept. 3.—(AP)—Plans are being made here for the most elaborate fair in years. J. C. Morcock Jr., says directors of the fair are making arrangements for unusually good exhibits and various entertainment features.

Cobb Singers to Meet.
MARIETTA, Ga., Sept. 3.—The Cobb county singing convention will meet at the courthouse September 8, says John Perry, president.

Cornelia Schools Open.
CORNELIA, Ga., Sept. 3.—The Cornelia public schools opened here yesterday with the largest enrollment in recent years. Superintendent A. L. Brewer began his fourth year as head of the school system.

Heavy Tax Rate Set.
McDONOUGH, Ga., Sept. 3.—(AP)—The Henry county tax levy for 1935, announced today by W. H. Berry, chairman of the Board of Commissioners, will be 15 mills for county purposes, 5 mills for county-wide schools, and 4 mills for the state.

Residence Damaged.
BARNESVILLE, Ga., Sept. 3.—The residence of Homer Bush, on Zebulon street, was damaged by fire Sunday afternoon. The blaze was extinguished before it gained much headway, but the interior of the house was badly despoiled with water.

Georgian Is Honored

Following is the council resolution by Alderman Hailey:

"Whereas, a bond election has been authorized for September 18, 1935, for a modernization of the sewer system of Atlanta, and certain improvements at number of schools throughout the city;

"And, whereas, if this bond issue is approved, the United States government will supplement by several million dollars additional funds to complete the projects named;

"And, whereas, there has been some feeling among the employees of the city that the amount needed annually to pay the interest and sinking fund on the bonds would mean a further decrease in the salaries of city employees;

"And, whereas, arrangements have been made that the necessary funds for this taken from sources now going for other purposes, and will not be taken from salaries of city employees;

"Therefore, be it resolved, by the mayor and general council that the city employees of the city of Atlanta be given assurance that there will be no reduction in their salaries for the purpose of paying interest and sinking funds on these bonds."

**TAX ON JUTE, PAPER
ATTACKED IN SUIT**

MACON, Ga., Sept. 3.—(AP)—In the first processing case of its kind filed in Georgia, the Fulton Bag and Cotton Mills, of Atlanta, this morning initiated proceedings in federal court to restrain collection of taxes on materials used as substitutes for cotton.

Under the AAA, it is set out, the secretary of agriculture is given authority to proclaim a processing tax on materials used as substitutes for cotton, under certain conditions.

The petition claims that the state collector of internal revenue, W. E. Page, has been collecting a processing tax on jute and paper used for bags for cottonseed.

**WINDER SCHOOLS OPEN
WITH BIG ATTENDANCE**

WINDER, Ga., Sept. 3.—The Winder public schools opened yesterday with the largest enrollment in the school's history. Opening exercises were held in the high school auditorium with Professor F. L. Ivie, superintendent, in charge.

Since the Winder school has been made the county high school also all the high school pupils of the county attend bringing the enrollment to over 300.

A new addition to the school's curriculum to be added this term is military training for all boys in high school. This will be in charge of Lieutenant Rjane Fuhnholmen, a graduate of West Point, who has already been assigned.

Besides Superintendent Ivie the faculty is L. M. Wilson, G. L. Blackwell, Lamar Jones, Rufus Berger, L. Getzen, Lieutenant Fuhnholmen, Miss India Brown, Miss Annie Reid, Miss Ruth Maynard, Miss Cora Couch, Miss Margaret Cannon, Miss Mildred Cromatie, Miss Emmie Durkin, Miss Rosa Zives, Miss Nina Chafin, Miss Josephine House, Miss Mildred Pledger, Miss Sara Grant, Miss Annie Bob Johnson, Miss Emily Van Landingham and Miss Marylou Cargile.

**POLK PETITION URGES
PENSION LAW ACTION**

ROCKMART, Ga., Sept. 3.—W. K. Lewis, of Browning, died in Polk county, states he has delivered to W. W. Mundy, member of the legislature from Polk, a petition signed by 100 citizens of the vicinity of Rockmart, requesting Mundy to use his influence with Governor Talmadge "with a view to early state action to receive the benefits authorized by the federal government in the security bill that recently became a law."

The petition says: "We feel like our state should share with the federal government in the support of this worthy cause, (the old age pension.)"

STATE DEATHS

MRS. F. L. BROWN.
ROYSTON, Ga., Sept. 3.—Funeral rites in Mrs. F. L. Brown, 72, who died yesterday afternoon following an illness of several months, were held at the Baptist church here this afternoon with Rev. C. W. Henderson and F. E. Crutcher in charge. Interment was in Rose Hill cemetery.

Mrs. Brown before marriage was Miss Maud Baker, a member of one of Hart county's most prominent pioneer families. She is survived by her husband, F. L. Brown, with whom she celebrated their 50th wedding anniversary last November, together with the following children: Dr. Stewart D. Brown, Mrs. H. L. McCrary and Miss Laura Brown, all of Royston, and Mrs. J. A. Wilbanks, of Toccoa; also two brothers and a sister, J. F. Baker, Mrs. Janie Veal and D. A. Baker, of this section.

MRS. D. D. WHITTEN.
TOCOCA, Ga., Sept. 3.—Mrs. D. D. Whitten, 86, pioneer Toccoa citizen, died at her home here this morning. She is survived by three sons, J. H. Whitten, of Baxley; L. J. Whitten, of Eastmanville, and G. V. Whitten, of Baxley, Va.; two daughters, Mrs. C. L. Williams, of Athens, and Mrs. O. C. Parat, of Toccoa.

Funeral services will be held at Liberty Hill Baptist church tomorrow morning at 11 o'clock.

**COLLEGE GIRLS GET
ADVICE ON CLOTHES**

Instructor at University of Georgia Gives Tips on Wardrobe.

ATHENS, Ga., Sept. 3.—(AP)—Tips to the college girl on what clothes to buy were given today by Mrs. Margaret Blair, associate professor of home economics at the University of Georgia.

"First, the girl who is going to college should take account of what she already has."

"If she is going to college for the first time, she should remember that she will be in an entirely different setting and that no one will recognize her last year's clothes. So she should be able to use many of her things. If she knows what is right as to style, she will know just the right thing to do in order to keep these things from looking like 1934."

"Even if she is returning to the same college she can utilize many of her last year's clothes if she knows just what to do with them and how to wear them."

"In buying her new things she should consider what she already has, so she can work her ensembles with ease and economy. For instance, if she has a number of things in one or two colors her new things should be in those colors. Otherwise she could not use what she has without buying different hats, shoes and other accessories."

"She should know fabrics because never has there been a time when there were so many attractive but unsatisfactory ones. But if one selects just by effect it is easy to go wrong."

"It is always best to buy from a reliable firm because often after a little wear and cleaning what seems to be a bargain is often just a disappointment."

"As to style and color, it is not only important that the college girl know what is in style and what colors are being worn, but she needs to know what her personality type is and to select the designs and colors which will make her most attractive, because it is easy to go wrong here also. What is overpowering to one type makes another most attractive."

**1,000 HENRY STUDENTS
ENTER FOUR SCHOOLS**

McDONOUGH, Ga., Sept. 3.—Approximately 1,000 Henry county boys and girls returned to the four largest consolidated schools that opened the regular fall term yesterday.

The faculties are headed by H. H. Hargrave, McDonough; L. H. Davis, Hampton; J. V. Webb, Stockbridge; P. Merrill Minter, Locust Grove. Other teachers at McDonough are: Tommie Mobley, Miss Lucille Bowden, Miss Mary Lou Rodgers, Miss Lucille Joyner, Miss Louise Ingram, Miss Lucy McDonald, Mrs. Frank Copeland, Miss Bertha Bunn, Mrs. J. E. Turner, Miss Ruth Dickson, Miss Catherine Russell, Miss Susan Elliott.

At the Hampton faculty consists of Miss Bessie Burtz, Miss Nell Tarpier, Miss Martha Ross, Miss Annie Rowan, Miss Jess Rowan, Mrs. Joe Rowan, Mrs. H. Davis, Mrs. E. S. North, Mrs. Herbert Fortson.

At Stockbridge school the teachers are Miss Margaret Turner, Mrs. Norris Bowen, Mrs. J. M. Grant, Miss Mary Thompson, Miss Ruth Bowen, Mrs. G. S. Keen, Miss Josephine Morton, Miss Anna B. Cooper.

The Locust Grove faculty members are Miss Ruth Middlebrooks, Mrs. Jennie Welch, Miss Elizabeth Patterson, Miss Serena Swann.

**AUTO ACCIDENT FATAL
TO LAND BANK AGENT**

CARROLLTON, Ga., Sept. 3.—(AP) John Allen Armstrong, 30, field representative of the Federal Land Bank, died at the Carrollton clinic here today after being hurt in an automobile accident Saturday night.

Mr. Armstrong, who formerly had lived at Spartanburg, had lived here for 18 months. The wife, three sisters and one brother, all of Spartanburg, survive. They were listed here as Misses Lydia, Sadie and Tommie Armstrong, and Frampton Armstrong.

The body will be sent to Swainsboro for funeral services and burial Thursday morning.

**CRASH VICTIM RITES
ARE SET FOR CUTHBERT**

MACON, Ga., Sept. 3.—(AP)—The body of B. F. Gieslin, 42, courthouse employee who was killed in an automobile accident Sunday night, will be taken to Cuthbert for funeral services and burial. He formerly lived in Columbus, where he had been a machinist.

The wife, two sons, one brother and four sisters, Mrs. Sudie Daniels, of Phenix City, Ala.; Mrs. Mattie Lou Calhoun, of Cuthbert, Mrs. Eva Tindall, of Arlington, and Mrs. Alma Tommel, of Columbus, survive.

Mr. Gieslin was struck by a truck.

AUGUSTA TO DEDICATE NEW BARRACKS TODAY

City, County and State Officials to Witness Opening of \$100,000 Building.

AUGUSTA, Ga., Sept. 3.—(AP)—The new \$100,000 administration and detention building for Augusta's law enforcement agencies will be dedicated at formal exercises tomorrow.

Twelve members of city government will make brief talks at the ceremony planned for 5 p. m. in front of the new building. Mayor Richard E. Allen Jr. has announced.

A barbecue before the ceremony and a dance following will complete the celebration. Invitations were sent to 267 city and county officials to attend. State officials were also urged to come.

Members of the police barracks building committee are C. P. Walker, chairman; Thomas Barrett, (mayor, 1934); Richard E. Allen Jr., (mayor, 1935); Isaac S. Peoples Jr., attorney; John C. Burton and Ben E. Lester, chairman of the 1935 finance committee; Seisel E. Wall, chairman of the 1934 finance committee; G. C. Hubbert, civil service commissioner, and R. Allen Elliott, civil service commissioner.

Built at an estimated cost of \$100,000, it is planned to pay for the barracks with receipts from recorder's court and beer licenses.

**OBLIGING THIEF
Expresses Regret at Taking Auto Gadget.**

MACON, Ga., Sept. 3.—(AP)—W. T. Anderson, Macon newspaper publisher, went to Tattall county yesterday to see the laying of a cornerstone to the new state penitentiary.

When he came back to his automobile, he noticed a thermometer, with a small card telling him when the motor oil should be changed, was missing. In its place was a note which read:

"Dear Sir: Change oil at 34,850. Sorry, but I had to take it."

**PRESIDENT MAY SEE
TREE-LINED HIGHWAY**

WARM SPRINGS, Ga., Sept. 3.—(AP)—Roadways which President Roosevelt travels when he comes to Georgia for a vacation will be beautified if the Warm Springs Women's Civic Club has its way.

The club has named a committee on highway beautification to carry out an extensive program of planting along the picturesque roads in this section. Trees to be used are the dogwood and crape myrtle.

The program is a part of a plan of a district organization of the Georgia Federation of Women's Clubs to plant 1,000,000 dogwood trees in Georgia during a five-year period.

BLUE, GRAY REUNION ARGUED IN AMARILLO

First Business Session of
45th Annual Gathering Is
Set for This Morning.

AMARILLO, Texas, Sept. 3.—(AP) Gray-haired "rebels" of the south shook their heads in a none-too-sure air today in discussing a proposed joint meeting with their old "Yankee" foes—the Grand Army of the Republic.

Gathered here for their 45th annual reunion, the first business session opening tomorrow morning, the feeble Confederate veterans argued over the proposal to meet with the G. A. R. at Gettysburg, Penn., in 1958.

"Sure we'll meet with them if we can meet on equal terms," declared General Rice A. Pierce, of Union City, Tenn., commander-in-chief of the United Confederate Veterans. "When the question came up several years ago the Grand Army of the Republic said we would have to march with our flag furled."

Told Them Where To Go. "I introduced a resolution telling them to go to hell," Ninety-year-old General Harry Hene Lee, of Nashville, Tenn., adjutant general and chief of staff of the U. C. V., said he held no animosity toward the Union forces he opposed in the 60's.

"But no flag will ever lead ours," he said. "The American flag can be on the right, where it belongs, but it must be even and even. I am in favor of a joint reunion with that one absolute stipulation."

Major-General M. J. Bonner, of Fort Worth, declared the joint reunion "will never occur."

"I'll fight it with all my might," he said. "If we all met together there would be a fight and the war would be renewed."

Some 500 of the veterans had arrived and scores of others were pouring in by train and bus.

Paul Roy, of Gettysburg, secretary of the Pennsylvania state commission, an organization formed to promote the Blue and Gray reunion, will extend the invitation.

Arriving early today, the United States marine band will play for the veterans' grand ball Wednesday night and the grand parade Friday morning.

EDGE OF HURRICANE TO BRING RAIN TODAY

Showers are due to arrive in Atlanta today as a mild taste of the tropical hurricane that has been sweeping Florida.

Local Weather Bureau officials reported last night that the extreme edge of the storm will bring the occasional rain to Atlanta, but to no great extent.

Temperatures will be somewhat lower today, according to the Weather Bureau, with the mercury climbing only to the lower eighties. Yesterday's high temperature was 84.

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things: First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2½ times as much as the 50c size and gives you 25% more for your money.

"KLUTCH" HOLDS FALSE TEETH TIGHT

Klutch forms a comfort cushion; holds the plate so snug it can't rock, drop, chafe or "play with" you. You can eat and speak as well as you did with your own teeth. 25c and 50c a box at Drug Stores.—Adv.

Dixie Utility Chiefs Map Freight Rate War

A concerted drive to eliminate what are termed freight rate discriminations against the south was launched yesterday by representatives of the various state utility commissions and a number of leading southern shippers. Prominent participants in the parley are shown above. Seated from left to right are Porter Dunlap, of Tennessee; J. T. Tench, of Florida; and J. C. Darby, of South Carolina. Standing are H. E. Ketner, of Virginia; Jud P. Wilhoit, of Georgia; and J. W. Wolfe, of South Carolina. Staff photo by George Cornett.

COUNCILMEN APPROVE STREET FUND PLAN

Continued From First Page.

from \$10,000,000 to \$12,000,000 within the next few months," White said. "The government is ready to be extremely liberal to Atlanta and we should not pass up the opportunity just as we cannot afford to pass up the bond issue we are submitting to the people."

Gilliam said the city probably will receive from \$40,000 to \$50,000 a year in fees from the government when Techwood and University low-cost housing projects are completed and the city will not have to pay as much as \$40,000 for relief next year. Some of that money might be available, he pointed out.

No Proposal Submitted. The plans, however, were nebulous and no definite proposal was submitted for council action.

Among the other major actions of council were:

1. Establishment of a special committee of five members of council to be appointed by Mayor Key to study the traffic survey just completed by FERA at a cost of \$40,000.

2. Heard Mrs. Juliet Dowling, civic committee chairman of the Pilot Club, which is sponsoring a drive to raise \$10,000 for construction of a child's preventive center at North Hill.

3. Placed on the table the resignation of Dr. C. W. Childs, fifth ward councilman. It will be accepted at council's next meeting, September 16.

4. Referred to the police committee a communication from Solicitor-General John A. Boykin protesting establishment of beer and wine dispensaries within 100 yards of churches or schools, which is prohibited by law.

5. Reduced the monthly charge for water to the Druid Hills fire department from \$150 to \$75, despite opposition from several members of council who contended the territory should be annexed to Atlanta if it seeks concessions.

6. Referred to the charter revision committee a proposal by Councilman White to establish a council-city manager form of government for Atlanta.

MEET HELD AT GRIFFIN TO BOOST ROUTE 16

GRIFFIN, Ga., Sept. 3.—(AP)—Plans looking toward improvement of Route 16 in Georgia were discussed at a meeting here yesterday of a number of civic leaders from eight middle Georgia counties along the route.

Charlie L. Redmon, of Jackson, president of Route 16 Association, formed several years ago, presided. Leaders of the conference arranged to confer with Governor Talmadge and members of the state highway board in an effort to get the road paved.

The conference is to be held some time this week.

The highway is a cross-state road passing through Griffin.

DAWSONVILLE OPENS NEW SCHOOL BUILDING

DAWSONVILLE, Ga., Sept. 3.—A county-wide rally was held here today, dedicating the new school building recently completed. Among the speakers were M. D. Collins, Judge M. J. Yeomans, Congressman R. Frank Wheeler and Colonel Sam Tate.

The welcome address was by Dr. H. Palmour, master of Etowah Lodge, President J. C. Rogers, of North Georgia College, Dahlonega, and Judge W. J. Tucker, pioneer citizen of Dawson county, also spoke.

A basket dinner was served the crowd which numbered around 1,000.

TVA Assistant Quits. KNOXVILLE, Tenn., Sept. 3.—(AP) L. L. Campbell, executive assistant to Dr. A. E. Morgan, chairman of the Tennessee Valley Authority, tonight announced his resignation, effective October 1.

Campbell will go to Asheville, N. C., to help develop mining interests near the city.

Russia Defies Protests by Japan, To Execute Spies From Manchukuo

MOSCOW, Sept. 3.—(AP)—Three former officers of white Russian armies accused of entering the Soviet Union through Manchukuo as spies were sentenced to death today at Irkutsk close on the heels of a Japanese protest here against activities of the communist congress of the third communist international.

In response to the Japanese demarche, the Soviet government had drawn the Japanese ambassador's attention to what it called anti-Soviet activities of white Russians in Manchukuo.

The Japanese protest was promptly rejected, as was the similar recent one of the United States.

Those sentenced were former Colonel I. Kobylkin and former Lieutenant E. Perekhlof and V. Alenikoff. In connection with the Japanese protest, it was learned the Chinese minister raised the question of communist activities in a recent conversation with Soviet authorities, but no formal protest was lodged.

Previous protests had been made by England, Italy and Latvia, in addition to the United States.

The three former officers were said by soviet to have confessed they entered Russian territory from Manchukuo as spies to incite and commit acts of terrorism on behalf of a foreign power.

LOCAL B. AND L. GROUP OBTAINS U. S. CHARTER

Institution Becomes Atlanta
Federal Savings and Loan
Association.

In the spring of 1928 a group of Atlanta business and professional men, realizing the need for a local home financing and thrift institution, organized the Atlanta Building and Loan Association. From the beginning this association has been successful owing to its conservative and careful management and the loyal co-operation of its shareholders. During its existence, six years of which have been depression years, this association has earned and paid dividends regularly to its shareholders, never less than 4 per cent per annum, and has made loans to Atlanta home owners approximating 225 in number.

In order that the association may more rapidly expand its usefulness locally in the thrift and home financing field, the shareholders some weeks ago made application for a federal charter. The federal charter was received and accepted by the shareholders at a meeting on August 29.

Announcement was made by Walter McElreath, president of the association, that the Atlanta Building and Loan Association now becomes the Atlanta Federal Savings and Loan Association.

The assets of the old association were approved by the Federal Home Loan Bank Board at 100 per cent and every requirement of the board has been fully met.

The funds of all savers and investors in the association will automatically be protected against loss up to \$5,000 by the Federal Savings and Loan Insurance Corporation, a United States government sponsored institution. The federalized association will enjoy other advantages, including supervision and periodical examination under direction of the Federal Home Loan Bank Board; membership of

the Federal Home Loan Bank, availability of federal subscription to shares up to three times the entire local private subscriptions.

Mr. McElreath further stated that the Atlanta Building and Loan Association has for many months held membership in the Federal Home Loan Bank system. The insurance, he pointed out, assures absolute safety to every shareholder, while membership in the Federal Home Loan Bank affords redemptive privileges which assure a reservoir of credit for the normal functioning of a lending institution of this type and the sound expansion of its services to home-owner borrowers. Preparatory to approval for a federal charter and insurance of accounts the association was thoroughly examined as to quality of its assets, soundness of policy,

management and many other requirements.

The federal Savings and Loan Insurance Corporation was formed to protect savers and long-term investments in a somewhat similar way in which the Federal Deposit Insurance Corporation insures the liquidity of banks. Experience of all insured institutions has been that insurance invites public confidence.

The Atlanta Federal Savings and Loan Association will be a privately managed, local and strictly mutual institution, whose lending operations are limited to a 50-mile radius of its home office.

The same officers who served the Atlanta Building and Loan Association were elected by the shareholders of the Atlanta Federal Savings and Loan Association. They are: President, Walter McElreath; first vice president, W. L. Blackett; vice president and treasurer, R. W. Davis; secretary and attorney, W. O. DuVal.

Announcement was made by Walter McElreath, president of the association, that the Atlanta Building and Loan Association now becomes the Atlanta Federal Savings and Loan Association.

PWA DEADLINE BRINGS FLOOD OF APPLICATIONS

Today Final Day To File Requests for U. S. Aid in Improvements.

Deadlines are rearing themselves before Georgia communities and rural sections who are looking for governmental aid in their plans for local improvements.

Today is the last day for the filing of applications at the Georgia headquarters of the Public Works Administration and officials here cleared the decks to handle the heaviest load of applications to be received in one day.

Next Tuesday is the last day for the receiving of inquiries for federal financing of rural electrification projects, the final date for inquiries in Washington being September 12.

Work is almost completed at the office of the loan officers' Loan Corporation and already the staffs have been reduced to a loan servicing force. No more applications are being taken.

Million-Dollar Day.
At PWA offices at the close of business yesterday it was announced that the receipt of \$2,000,000 applications during the day pushed Georgia's total request for federal grants and loans near the \$13,000,000 mark. Another million-dollar day is expected today.

Largest of projects submitted yesterday was one in which Lakeland proposes to erect a power dam and distribution system costing \$500,000 through a 55 per cent loan and 45 per cent grant. End point is preparing a \$200,000 project covering waterworks, sewers and street improvements, and College Park, which already has applied for PWA aid on a \$150,000 waterworks project, is preparing to ask for a gymnasium and auditorium.

Yesterday's Applications.
Yesterday's projects included Grantsville school district, Coweta county, school, auditorium and well, \$31,000, loan and grant; Gainesville High school, \$61,000, loan and grant; Lakeland courthouse and jail, \$20,000, grant (all grants 45 per cent); Eatonton courthouse, \$25,000, grant; Nashville county schools, \$26,500, grant; fender additions to school, \$3,500, loan and grant.

Milldeville, repairs to courthouse, \$50,000, grant; Milldeville jail, \$10,000, grant; Decatur, water tank, \$35,894, grant; Decatur school building, \$30,000, loan and grant; Vienna hospital, \$15,000, loan and grant; Vienna Community Center and swimming pool, \$15,000, loan and grant; Montrose waterworks, \$10,000, loan and grant; Eatonton, supply improvements, \$200,000, grant; Sylvania well and pump, \$6,000, loan and grant.

Elberton R. F. D. additions to school building, \$6,000, loan and grant; Thomsville sewage disposal plant, \$33,670, grant; Mount Vernon repair, courthouse, \$40,000, grant; Cleveland courthouse, \$40,000, grant; Baxley R. F. D. school building, \$12,727, loan and grant; Milldeville armory, \$75,000, grant.

Lafayette hospital, nurses' home, etc., \$90,000, grant; Gray school and auditorium, \$29,000, grant; West Point hospital, \$34,485, grant; Seneca waterworks system, \$10,000, grant; Hainesville, high school, \$64,000, loan and grant; Lakeland courthouse and jail, \$20,000, grant.

Frank A. Holden, state manager of the Home Owners' Loan Corporation, confirmed reports yesterday John H. Calais and G. Glen Todd, managers of the Savannah and Macon HOLC districts, have completed their work for the corporation.

Work Nearly Over.
"Our work is nearly over in making loans," Holden said, "and we have reduced the staffs to a loan servicing force. We have made about 14,000 loans in Georgia and have about \$900,000 more of which may not be approved. Of course we are not taking any more applications."

G. Lloyd Preacher, who has worked in various capacities in the Macon and Savannah districts, will be in charge of the Savannah servicing staff and George R. Jones, former district appraiser, will have charge of the Macon office. Holden said inquiries for federal aid in rural electrification projects are being cleared to Washington through the Atlanta office of the National Emergency Council. More than 100 inquiries have been received so far from groups in rural sections throughout the state.

Plans for the expenditure of the \$100,000,000 set aside by the government for this work will be completed after the requests have been examined at Washington. No inquiries will be received there after September 12.

MAN FATALLY SHOT TRYING TO SAVE WOMAN
SEATTLE, Sept. 3.—(AP)—George Sequim, 25, was fatally shot at Renton, Coroner O. H. Mittelstadt said today when he tried to disarm a woman who was attempting to shoot herself.

Mittelstadt said Sequim was shot last night while struggling with Mrs. Billie Campbell, 37, who was hysterical over the drowning of her son, Staddon Mackenroth. Her son was reported lost off the whaling ship Westport in an Alaskan gale last Wednesday.

IS EPILEPSY INHERITED? CAN IT BE CURED?

A booklet containing the opinions of famous doctors on this interesting subject will be sent FREE, while they last, to any reader writing to the Educational Division, Dept. S-89, 543 Fifth Ave., New York, N. Y.—(adv.)

DO CHOKING SPASMS WRECK YOUR REST?

Thousands of sufferers from Asthma, Cough, Bronchitis, Hay Fever, etc., find relief in Dr. Blum's Medical Cigarettes (no tobacco) for quick relief. Especially effective for relieving Hay Fever, asthma and sudden violent.

ASTHMA ATTACKS

MADAM VARDER
Palmetto, Business Adviser. Will tell your past, your present, your future, call your name, tell the real cause of your misfortune, or no charge. Hours 9 a. m. to 9 p. m. Three questions answered free with this ad. 3711 PEACHTREE ROAD, (Take Peachtree Road Car to Peachtree Ave.)

USE CARBOIL FOR BOILS

Keeps throbbing pain; allays inflammation; reduces swelling; lessens tension; quickly heals. Easily applied. Inexpensive. Results guaranteed. Also use for festering, rising, cuts, burns, bites. At drugists, or Sparhawk-Neal Co., Nashville, Tenn.

Capital Electric Corporation Now in New Quarters

The Capital Electric Corporation is celebrating removal into its new quarters at 415 Peachtree street today with an open house. Above are shown members of its sales force. Left to right, John R. Smith, Burns C. Cox, S. H. Rogovin, R. E. Rich, Jack H. Dyer, Bob S. Calhoun, George F. Schoen and Robert E. Hodges.

HEAVY TOLL OF LIFE EXPECTED IN STORM

Continued From First Page.

er, of West Palm Beach, was killed when his machine overturned during a blinding rain at Fort Myers, as the storm passed northward.

The barometer at Boca Grande dropped to 28.80 and torrents of rain fell but the reports made no mention of property damage.

Broken communications prevented definite confirmation of the deaths along the keys, except those of the three persons at Tavernier. The boats were brought here.

St. Petersburg, Tampa Ready.
St. Petersburg and Tampa, the largest cities on the lower west coast, made ready for the approaching storm. The barometer at St. Petersburg was falling steadily and early tonight there was a 48-mile wind reported.

The report to the coast guard concerning reported deaths at the Rock Harbor camp was from a radio report and the source was not given. Earlier a Miami Daily News staff photographer said he was told 75 veterans of the camp had perished.

Three Gulfport fishermen still were missing. St. Petersburg reported they were last seen yesterday as they took a 14-foot open boat for the gulf fishing banks.

Spouse fishermen were notified by a coast guard plane to turn into safe ports.

Streets Lights Out.
The wind whipped through the streets and residential sections of St. Petersburg late tonight, but there had been no damage except to shrubbery. Streets lights were turned out as a precautionary measure.

At 9:30 p. m. the weather bureau at Jacksonville ordered up hurricane warnings from Punta Gorda to Carrabelle on the west coast and southward along the coast from Jacksonville east coast from Miami to Jacksonville. Previously the hurricane warnings only extended north on the west coast to Tarpon Springs.

The bureau said the storm was moving north-northwestward "apparently on a broad recurve attended by shifting gales and winds of hurricane force near the center."

Forecasters warned of high tides at least as far north as Cedar Keys.

Nearing Tampa Bay.
At 9:30 p. m. the storm was reported approaching Tampa Bay.

The refugees from Upper Matecumbe wounded when their frame dwellings and hospital crumbled like a matchwood in the face of the storm, told tales of horror and narrow escape from death as waters rushed over the key like a mill race.

All but one of the 64 buildings in the camp were leveled by the wind and in the one small shack still standing rescue workers found 10 of the most seriously injured of the victims on the bare floor.

"I would rather face machine gun fire again than go through an experience like that, once more," said George Sequim, 30-year-old veteran.

Camp Head Reports.
Fred Ghent, director of the veterans' camp on the Florida keys, told the Associated Press over long distance telephone tonight he did not believe there had been any great loss of life at Camp No. 1, south of Snake Creek.

Ghent said he had gone to the northern side of Snake Creek this afternoon and tried to shout to a half dozen men at the demolished camp.

They did not appear to be greatly perturbed, Ghent said, and gave no signals which he interpreted as meaning any men had been killed.

Ghent said he believed all the men in the camp except the few he saw had boarded the rescue train yesterday afternoon as it proceeded southward.

No Other Reports.
Ghent said he had no way of knowing the conditions at the two camps farther south.

The director added every building at the camp had been flattened. He said he thought there were not more than 450 men in all at the three camps.

ELECTRIC COMPANY NOW IN NEW HOME

Capital Electric Corporation Holding 'Open House' at 415 Peachtree.

Capital Electric Corporation, one of the larger distributing organizations in the southeast, moved into its new and larger quarters, at 415 Peachtree street, Tuesday and is holding open houses through today.

The new quarters have been completely remodeled and renovated, affording 25,000 square feet of floor space, twice as much as at the former location. Officials of the company announced that the removal to larger quarters was made necessary because of increased business and the optimistic outlook of general business conditions.

The Capital Electric Corporation has been in business in Atlanta for 25 years and is one of the largest distributing organizations in the southeast, operating in Georgia, Alabama and Florida.

The lines featured by the company include Stewart-Warner radios and refrigerators and vacuum cleaners. In addition the company carries for both the wholesale and retail trade, a complete line of electrical fixtures and supplies, together with a general service for electrical mechanics.

from the bottom of the creek, and manned by two men, made the stream. It was the first rescue vessel to reach the stricken camp and the two men, Buck Hamilton and Jack Daniels, returned with pleas from the refugees on the opposite shore, for immediate medical aid.

Cost guard division headquarters at Jacksonville received a report tonight that volunteer workers were bringing women and children and "seriously injured" across Snake creek.

The radio message, from the Miami air station, said an unnamed state board of health official had returned from Tavernier to report the number of dead and injured in the Florida Keys "unknown."

Conditions Described.
He was quoted as saying conditions south of Tavernier were "deplorable." "Women and children and seriously injured," the message said, were being brought across the creek by volunteer workers "with inadequate equipment."

First to be taken from the stricken Matecumbe island was little Dorothy Van Ness, 6, whose father, Benny; brother, Henry Jr. and Eugene and sister, Katherine, reportedly lost their lives when they took refuge in the frame hospital building in the camp.

Three other children, 10-year-old Laura, 8-year-old Mary and 6-year-old John, were taken from the camp by a rescue boat. Mrs. Van Ness arrived on the third trip of the little rescue boat.

Mrs. Frances Cruse, 30, wife of veteran Joseph Cruse, her elbow injured and her body badly bruised, had not heard from her husband since the hurricane leveled their little frame dwelling. She was not sure of his fate.

Struck by Debris.
She suffered from exposure and spoke with some difficulty. She related how she escaped from her home just before it collapsed, only to be struck by flying debris.

Mr. and Mrs. A. Grubbs, members of the veteran group, but stationed at Camp No. 3, were guests of Mrs. Cruse when the Cruse dwelling collapsed. Like Mrs. Cruse, they got outside in time.

"We had come up from No. 3," Mrs. Grubbs related, "in order to catch the special train which was sent down to pick us up. The special didn't stop for us but kept going down to the other camp. Then the wind came and it couldn't get back up."

Trapped Under Roof.
Senison ran from his crumbling home only to be trapped under a roof.

"I drifted with it for nearly 200 feet and nearly smothered in the water. I am not sure how I got out."

Refugees and rescuers alike told stories of confusion in the wreckage-strewn camp. Injured and dead lay about the wreckage. A few of the bodies were covered with mattresses.

Officers of the Capital Electric Corporation. Left, Harry Lever, vice president and general manager, and Frank McGaughey, president.

Conditions Described.
He was quoted as saying conditions south of Tavernier were "deplorable." "Women and children and seriously injured," the message said, were being brought across the creek by volunteer workers "with inadequate equipment."

First to be taken from the stricken Matecumbe island was little Dorothy Van Ness, 6, whose father, Benny; brother, Henry Jr. and Eugene and sister, Katherine, reportedly lost their lives when they took refuge in the frame hospital building in the camp.

Three other children, 10-year-old Laura, 8-year-old Mary and 6-year-old John, were taken from the camp by a rescue boat. Mrs. Van Ness arrived on the third trip of the little rescue boat.

Mrs. Frances Cruse, 30, wife of veteran Joseph Cruse, her elbow injured and her body badly bruised, had not heard from her husband since the hurricane leveled their little frame dwelling. She was not sure of his fate.

Struck by Debris.
She suffered from exposure and spoke with some difficulty. She related how she escaped from her home just before it collapsed, only to be struck by flying debris.

Mr. and Mrs. A. Grubbs, members of the veteran group, but stationed at Camp No. 3, were guests of Mrs. Cruse when the Cruse dwelling collapsed. Like Mrs. Cruse, they got outside in time.

"We had come up from No. 3," Mrs. Grubbs related, "in order to catch the special train which was sent down to pick us up. The special didn't stop for us but kept going down to the other camp. Then the wind came and it couldn't get back up."

Trapped Under Roof.
Senison ran from his crumbling home only to be trapped under a roof.

"I drifted with it for nearly 200 feet and nearly smothered in the water. I am not sure how I got out."

Refugees and rescuers alike told stories of confusion in the wreckage-strewn camp. Injured and dead lay about the wreckage. A few of the bodies were covered with mattresses.

tional advisory issued shortly after 9:30 p. m. said the center of the storm was approaching the mouth of Tampa Bay "moving slowly north-westward, apparently on a broad recurve."

Government meteorologists here said the storm "will be attended by shifting gales and winds of hurricane force with high tides on the west Florida coast and strong southeast winds probably reaching gale force on the east Florida coast."

May Hit West Coast.
Meteorologist Grady Norton said the storm itself had not moved much closer to the Florida west coast but that the coastline juts out into the gulf there. He said if the present recurve in the storm's direction continues, the disturbance would hit the west coast but he declined to predict where.

If the storm recrosses the Florida coast, he said, it probably would move toward the upper Florida east coast bringing gale winds to a considerable portion of the state between Miami and Jacksonville.

He said the storm center at 9:30 p. m. was "pretty close to St. Petersburg" and was moving forward about 10 miles an hour.

He said St. Petersburg at that hour reported winds from 65 to 85 miles an hour and from the northeast and a barometer of 29.24 inches.

Tampa, he said, reported a wind of 52 miles an hour and a barometer of 29.41. Clearwater had a 50-mile wind and a barometer of 29.40.

DIXIE CAPTAIN RADIOS "MORALE IS HIGH"
MIAMI, Fla., Sept. 3.—(AP)—A roaring sea tonight hurled relentless waves against the Morgan line Dixie, held fast on a coral reef, and delayed until dawn the hazardous attempt of nearby rescue ships to remove her 372 passengers and crew.

But from Captain E. W. Sundstrom came the heartening message: "Morale of passengers high. They had ridden nearly 24 weary, dangerous hours in the storm-tossed liner which grounded on French reef, 60 miles south of Miami."

"Pounding Slightly."
"Chief engineer reports floor plates in fireproof up two inches," Captain Sundstrom radioed the Morgan line offices in New York. "Making no water except in double bottom. Ship pounding slightly."

The New York office was unable to explain reference to the floor plates. Apparently, when the seas subsided, the Dixie would pound herself to pieces, the captain radioed his decision to await dawn before beginning operations, to the S. Platano, shortly after 10 p. m., eastern daylight time.

The Platano, with the United Fruit steamer Limon, the El Occidente, of the Morgan line, were striding by three miles off the reef. The tanker Reeper also was in the vicinity.

View Cut by Squalls.
As darkness fell, mist from the waves and squalls of rain cut off entirely the Platano's view of the Dixie.

Wireless messages said a few passengers and crew members suffered slight injuries, but the skipper apparently did not deem their hurts sufficiently serious to warrant a detailed report.

Physicians Available.
An early message said: "Few passengers bruised. Several members crew minor injuries."

Several physicians were on the passenger list, however, and the Morgan line officials expressed belief there were no serious casualties.

The Dixie, driven by hurricane winds en route north up the Florida coast from New Orleans to New York, rammed the coral reef shortly after midnight. Fragmentary reports by wireless indicated several of the passengers and crew had suffered minor injuries.

(Officials of the Morgan line in New Orleans announced a total of 372 persons was aboard the Dixie, including 241 passengers and 131 members of the crew, 13 of them officers.)

The passengers, many on vacation, came from all parts of the country, but 108 were from the New York city area. A number were from New Orleans and other gulf cities.

All Is Well.
The captain's "all is well" message was received with joy at the Morgan line offices in New York where relatives of passengers and crew had besieged officials for word of their rescue. United Fruit's Tropical Radio and Radiomarine Corporation and Mackay Radio co-operated all day to keep communication.

The Dixie's radio apparatus was disabled for several hours and an emergency sent weak messages. Later Tropical Radio reported her radio was repaired and she was in communication with the rescue vessels standing by.

The weather was moderating tonight and nearly a dozen other vessels were headed in the Dixie's direction to offer aid should it be required.

Unless more serious complications are incurred it appeared unlikely rescue efforts would be undertaken before tomorrow morning.

The Dixie reported early today she was taking "some water in double bottom tanks." Just how badly she was damaged was not determined.

Limon Stands By.
The United Fruit line Limon sighted the Dixie shortly after noon, a message to Tropical Radio said, but was blocked by the rough weather from beginning rescue operations.

"The captain sees you okay," the Dixie told the Limon, "but can't transfer passengers now. It's too rough."

To which the Limon replied: "Will be standing by with boats ready."

Tropical Radio issued the following dispatch in New Orleans late today: "The situation remains unchanged. Steamers Reeper and Limon standing by waiting weather moderation. Platano hove to off Caryfort. Same reason (waiting for weather to clear). Dixie's radio equipment performing O. K. and we communicating with her."

The Dixie first gave her position as on dangerous Caryfort reef, whose sharp coral shoals almost annually claim various types of craft, but after a check it was determined she was grounded on French reef, eight miles farther south.

Air Aid Delayed.
The Miami coast guard station advised it would be impossible to send a seaplane to the scene until the weather improves.

communication with the rescue vessels standing by.

The Dixie first gave her position as on dangerous Caryfort reef, whose sharp coral shoals almost annually claim various types of craft, but after a check it was determined she was grounded on French reef, eight miles farther south.

Air Aid Delayed.
The Miami coast guard station advised it would be impossible to send a seaplane to the scene until the weather improves.

The message did not say a coast guard plane would go when the winds close. The United States cutter Carabasset and Sanke, the tanker Watertown, the Agawist and the steamship King.

The Limon was the first to reach the Dixie, but dared not advance close enough to the trapped vessel to attempt to remove the passengers because of the treacherous shoals and the heavy seas.

It was probable the government cutter Carabasset would venture as close as possible, when the seas subsided, and try to take off the passengers by breeches buoy.

This is a particularly dangerous undertaking, however, and may not be attempted if there are signs of the Dixie withstanding the pounding of the shark-infested seas.

Visibility Is Low.
With visibility virtually nil, the vessel that ploughed to the Dixie's rescue were compelled at first to depend almost entirely upon garbled messages from the stranded liner.

They set their courses for Caryfort reef but later groped their way southward through the dangerous shoals after it finally was determined the Morgan line actually was grounded on French reef, 60 miles south of Miami.

The coral shoals in the vicinity of Caryfort reef and French reef are regarded in shipping circles as being among the most treacherous areas in the Florida straits.

A light house flasher, where a huge iron lighthouse flashes warnings to ships at sea, extends about ten miles off shore near the southern tip of the Florida mainland. Turtle Reef, however, is a three and one-half miles farther south and on beyond lies Elbow beacon.

Some of the reefs are hidden securely beneath water as deep as two fathoms and seaweed and baracuda infest the waters, and on the rugged shores are alligators.

Notable Passengers.
Among passengers aboard the Dixie are Leland D. Ransom, of Westfield, N. J., assistant manager of the Morgan Steamship Lines, operators of the ship, and his wife and two sons; Dr. Sanler Lorand, New York psychiatrist, and his wife, who are returning from a California vacation; Pauline Humston, secretary to the chairman of the board of the New York publishing firm Harper & Brothers, and Fannie Jacobs, head of a New York hotel supply company.

ROOSEVELT READIES ARMY, NAVY, RED CROSS.
HYDIE PARK, N. Y., Sept. 3.—(AP)—President Roosevelt tonight ordered the army, navy and Red Cross to render all possible aid in the Florida hurricane area and asked Governor Sholtz if any additional federal assistance was needed.

The President sent the following telegram to Governor Sholtz: "Army and navy ordered to render all possible aid and Red Cross already at work. Let me know if there is any additional emergency rescue work federal government can do."

RED CROSS, FERA RESCUE CREWS START
WASHINGTON, Sept. 3.—(AP)—Red Cross headquarters here was informed tonight by Leonard Thompson, disaster chairman of the Miami chapter, that three ambulances, 10 doctors, 12 nurses, rescue crews and food supplies had been sent toward the war veteran camp at Rock Harbor, Fla.

The relief crew was directed to check a report that 75 veterans had been killed in the hurricane that swept that section. The FERA headquarters was advised, was sending a similar party out from Key West in an attempt to reach the scene.

The Miami group is equipped with a portable radio to maintain communication with a base.

BOY, 3, LOST 65 HOURS IN MISSOURI, IS FOUND
AUXVASSE, Mo., Sept. 3.—(AP)—Three-year-old John Wesley Kennon, toddler on briar-scratched legs out of the woods today after 65 hours of wandering, ending fears of searchers that wolves had killed him.

The red-headed, barefoot boy was rushed to the eager arms of his mother, Mrs. Ellen Lee Kennon, 20, already saddened by the deaths within three months of her husband and a son. A baby daughter was born two weeks ago.

Since Saturday, when John was lost while playing hide-and-seek with two older brothers, scores of persons had searched rain-soaked gullies and underbrush.

The President sent the following telegram to Governor Sholtz: "Army and navy ordered to render all possible aid and Red Cross already at work. Let me know if there is any additional emergency rescue work federal government can do."

ETHIOPIAN EMPEROR DEFENDS CONCESSIONS

Continued From First Page.

of this government that it was highly desirable that the necessary steps should be taken at the earliest possible moment to terminate the present concession.

"The Secretary of State was later informed by the above officials of the company that the company has decided to withdraw from the concession and is notifying the emperor to that effect, and giving the following statement to the press:

"G. S. Walden, chairman of the board of the Standard Vacuum Oil Company, jointly owned by the Standard Vacuum Oil Company and Standard Oil Company of New Jersey, who has just returned from Europe, today issued the following explanation of his company's position in the negotiations with the Ethiopian government relating to the oil concession reported as having been granted to the African Exploration and Development Corporation.

There 20 years. "For more than 20 years the Standard Vacuum Oil Company and its predecessor have been engaged in the petroleum business in Ethiopia and interested in the possibilities of crude petroleum production in Ethiopia as well as in other countries in which it is doing business.

"Early this year, Mr. Francis W. Rickett, of London, approached us with the possibility of negotiating on our behalf a petroleum exploration and development agreement with the Kingdom of Ethiopia.

"After considerable discussion with Mr. Rickett, it seemed probable that he might be able to secure a concession, whereupon the Standard Vacuum Oil Company organized a corporation in Delaware known as the African Exploration and Development Corporation as a wholly owned subsidiary to acquire such concession when granted.

"On Friday last I was informed that an agreement had been signed with the Kingdom of Ethiopia, though I have not seen a copy of it as executed. The agreement which Mr. Rickett was authorized to negotiate relates to the development of crude petroleum production and provides for no payment or loan of money nor has any been made.

"The agreement calls for a geological survey within one year. If this survey indicates the presence of petroleum in such quantities that the African Exploration and Development Corporation should desire to continue to hold the concession, then it must begin drilling in 1936. Thereafter, in the event petroleum is discovered in commercial quantities the operation of the properties is to be in accordance with customary development practice. Ethiopia then would receive a royalty on all petroleum produced.

"This matter was handled in the regular course of business as a private transaction with Ethiopia, but without consultation with any other government.

"In view of the misleading nature of the agreement, it is hereby announced that the agreement is hereby annulled and the concession is hereby withdrawn.

"It is hereby announced that the agreement is hereby annulled and the concession is hereby withdrawn.

"It is hereby announced that the agreement is hereby annulled and the concession is hereby withdrawn.

of the news comments in Saturday morning papers, I felt it necessary to give all the facts to our State Department before issuing any public statement. Today I have done this, and after conference with the secretary of state, have decided to advise the Ethiopian government of our intention to abandon the concession."

SELASIE DEFENDS CONCESSION RIGHTS

ADDIS ABABA, Sept. 3.—(AP)—Emperor Haile Selassie answered critics of his concession of oil and mineral rights with an official communique today, sent by personal bodyguard to a prospective war front bearing a gift sword from the King of England and threatened foreign correspondents with censorship.

His communique said he was within his full sovereign rights in granting his concession to Francis M. Rickett, British promoter. It pointed out the concession was exclusively of economic character designed to develop the country. The British government was not involved in it, directly or indirectly, the communique said, adding that the concession gave attention to the treaty of 1906 which Italy is preparing openly to violate.

125,000 on Front. The British sword which will flash in the Ethiopian sun to encourage the emperor's warriors was brushed today by General Habush Mikael, who guarded the emperor's life for years. Mikael, entrained with 700 modern equipped soldiers, the vanguard of 20,000 picked troops, is en route on the southern "front." Already there are reports that 75,000 warriors are on that front, with 50,000 more en route.

The emperor brought the sword just before Mikael departed with his shamm-clad, bareheaded and bareheaded men who bore modern rifles. A golden sword which the Duke of Gloucester presented on behalf of the King of England when Haile Selassie was crowned. Said the emperor:

"This sword, coming from a great, wise and just king, is a source of great honor and glory to me. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people.

"I am proud to receive this sword from the King of England. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people.

"I am proud to receive this sword from the King of England. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people. It is a symbol of the unity and strength of the Ethiopian people.

Highlights of News In Ethiopian Crisis

Continued From First Page.

Great Britain, a joint report on the tri-power negotiations in Paris and as a result each will make a separate report.

PARIS.—A conciliation commission on the Italian frontier incident between Italy and Ethiopia returned a decision that neither country was to blame for it.

ROME.—Government circles said Italy at Geneva would insist that Ethiopia should be ejected from the League, that Italy must expand and that sanctions mean war.

LONDON.—The British government was specially mobilizing reinforcements and strengthening the Italian fleet is gathering there for maneuvers.

ADDIS ABABA.—An official communique said Emperor Haile Selassie was fully within his rights in granting concessions to American and British interests. He sent his bodyguard to what may become a war front and also threatened foreign correspondents with censorship.

ingly unrelated moves apparently presented only one answer to informed observers when linked up, namely, Britain does not intend to be unprepared in case the present war scare extends beyond East Africa.

Workmen swung a gigantic boom across the grand hotel, but a virtually undefended since most of the Mediterranean fleet has assembled at ports facing the Suez canal.

The battleship *Bathory*, steamed from Plymouth to reinforce the Mediterranean fleet. Shortly afterward the troopship *Euralla* left Portsmouth carrying 1,300 troops and 900 vehicles.

Gilbert E. Hyatt, legislative representative of the federation, outlined his efforts to promote the legislative program prepared by the last Atlantic conference and recommended that the federation continue its policy of progressive shortening of hours in accordance with that movement in private industry.

Cities Seek Convention. Bids for the next national convention were being made heatedly yesterday by the legislative committee of the City, N. J.; Pittsburgh, Pa., and Toledo, Ohio; J. C. Sweeney, of Toledo, president of the Ohio federation, said he had received word that over half of the delegates had indicated they favored his city. Osborne Crafts, secretary of Toledo's convention bureau, and several others of a special committee, are here bidding for the next convention.

In his report yesterday President George pointed out that the clerical personnel represented in federation membership is greater than ever before, despite the many members lost through resignations, retirements, dismissals and deaths. He also recommended that "this convention record itself in favor of maintaining the United States Employees' Compensation Commission as an independent bureau."

In the business meeting of the women's auxiliary, where yesterday 400 were reported to be registered, visitors were met by officers Miller, Wash.; Earl L. Stimpson, of Indianapolis, Ind.; Carl T. Frisvold, of San Francisco, Cal.; Charles U. Senneker, of New York City; Miller, Ventres, of Miami, Fla.; W. W. Harvey, of Omaha, Neb.; Emmett J. Whelan, of Boston, Mass., and Herman Goldstein, of New York City.

A golf tournament and many other entertainment features have been scheduled for the 2,000 delegates and visitors of the 20th annual convention at the Ansley hotel, through Saturday. Officials reported that 1,067 persons yesterday attended the convention, and that 200 delegates and 300 visitors were required for transportation. Four downtown hotels are reported to be full.

A congratulatory note from Charles A. Moran, acting president of the Last Man's Club, 17th Engineers, American Expeditionary Forces, yesterday was received by officials of the federation. Many New York city telegrams and letters have arrived from government organizations and officials wishing the federation a profitable and successful convention.

W. V. Howes, first assistant postmaster-general, is expected to arrive tomorrow and to be the principal speaker at a banquet tomorrow night.

General Craig's Record. Major General Craig, a West Point graduate in 1898, saw service in Cuba in the Spanish war, the Boxer rebellion in China in 1900, and went to France in 1917 as chief of staff of the Forty-first division. Later he commanded the first corps, and after the Armistice, went to Germany as chief of staff of the 20th division, and later was chief of staff of the second army corps serving on the British front.

He commanded the American occupation center at Le Mans in 1919, and since has been assistant commander of the Army War College, commander of the tank school at Fort George G. Meade, Md., and assistant chief of staff, war plans division.

Major General Simonds was graduated from West Point a year later than Craig, served in China and the Philippines, and became an instructor at the first officers training camp at Plattsburg when this nation entered the World War. In September, 1917, he sailed for France as chief of staff of the 20th division, and later was chief of staff of the second army corps serving on the British front.

Postoffice Clerks Hear Reports On Varied Phases of Federation

Congressman Ramspeck To Address National Convention of Postal Workers Today; Four Hotels Filled With Delegates From All Over Nation.

Steps clearing the way for convention action on a mass of legislative resolutions dealing with pensions, substitutes, seniority and retirement were first taken yesterday morning as officers of the National Federation of Postoffice Clerks submitted written reports to the 1,000 delegates on hand for the first business session.

The report of Leo E. George, of Washington, D. C., president of the federation, was the first of a series of national organization of postoffice clerks but stated "no proposal for an amalgamation of the National Federation of Postoffice Clerks with the United National Association of Postoffice Clerks should be entertained until it contains a positive declaration assuring affiliation with the American Federation of Labor."

Sight-Seeing Trips. Nine vice presidents of the federation reported on the women's auxiliary, meeting simultaneously, held a similar session. At 10:30 o'clock the delegates left for a sight-seeing trip and a barbecue at Lakewood park.

The resolutions committee meanwhile were examining 674 resolutions which had been sent the federation by its local chapters.

With reports distributed, long business sessions are scheduled for the delegates, beginning this morning. Congressman Ramspeck, chairman of the house civil service committee, is expected to speak before the delegates this morning and the women's auxiliary at a luncheon at 12:30 o'clock.

Gilbert E. Hyatt, legislative representative of the federation, outlined his efforts to promote the legislative program prepared by the last Atlantic conference and recommended that the federation continue its policy of progressive shortening of hours in accordance with that movement in private industry.

Cities Seek Convention. Bids for the next national convention were being made heatedly yesterday by the legislative committee of the City, N. J.; Pittsburgh, Pa., and Toledo, Ohio; J. C. Sweeney, of Toledo, president of the Ohio federation, said he had received word that over half of the delegates had indicated they favored his city. Osborne Crafts, secretary of Toledo's convention bureau, and several others of a special committee, are here bidding for the next convention.

In his report yesterday President George pointed out that the clerical personnel represented in federation membership is greater than ever before, despite the many members lost through resignations, retirements, dismissals and deaths. He also recommended that "this convention record itself in favor of maintaining the United States Employees' Compensation Commission as an independent bureau."

In the business meeting of the women's auxiliary, where yesterday 400 were reported to be registered, visitors were met by officers Miller, Wash.; Earl L. Stimpson, of Indianapolis, Ind.; Carl T. Frisvold, of San Francisco, Cal.; Charles U. Senneker, of New York City; Miller, Ventres, of Miami, Fla.; W. W. Harvey, of Omaha, Neb.; Emmett J. Whelan, of Boston, Mass., and Herman Goldstein, of New York City.

A golf tournament and many other entertainment features have been scheduled for the 2,000 delegates and visitors of the 20th annual convention at the Ansley hotel, through Saturday. Officials reported that 1,067 persons yesterday attended the convention, and that 200 delegates and 300 visitors were required for transportation. Four downtown hotels are reported to be full.

A congratulatory note from Charles A. Moran, acting president of the Last Man's Club, 17th Engineers, American Expeditionary Forces, yesterday was received by officials of the federation. Many New York city telegrams and letters have arrived from government organizations and officials wishing the federation a profitable and successful convention.

W. V. Howes, first assistant postmaster-general, is expected to arrive tomorrow and to be the principal speaker at a banquet tomorrow night.

General Craig's Record. Major General Craig, a West Point graduate in 1898, saw service in Cuba in the Spanish war, the Boxer rebellion in China in 1900, and went to France in 1917 as chief of staff of the Forty-first division. Later he commanded the first corps, and after the Armistice, went to Germany as chief of staff of the 20th division, and later was chief of staff of the second army corps serving on the British front.

He commanded the American occupation center at Le Mans in 1919, and since has been assistant commander of the Army War College, commander of the tank school at Fort George G. Meade, Md., and assistant chief of staff, war plans division.

Major General Simonds was graduated from West Point a year later than Craig, served in China and the Philippines, and became an instructor at the first officers training camp at Plattsburg when this nation entered the World War. In September, 1917, he sailed for France as chief of staff of the 20th division, and later was chief of staff of the second army corps serving on the British front.

Chatham's Error Gives Smokies 4-3 Victory Over Crackers

ATHENS, Ga., Sept. 3.—I found Clegg Stark and Squab Young ready for the football season which had its formal opening at Sanford field this afternoon.

For about 20 years, man and boy, Clegg has been the colored caretaker of the varsity equipment, and "Squab" Young helps out.

"I am ready for the season to start," said "Squab." "I got me plenty of rest. Last night I went to bed at 7 and slept till 7 this mornin'. I got me 14 hours."

"You ain't slept but 12 hours," said the erudite Clegg, "if you sleep from 7 to 7."

"Don't tell me," said the indignant Squab. "I been around this here college long enough to know that 7 and 7 is 14."

So everything was ready for the start. Mr. Harry Mehre, the head coach, made his pre-season lecture. It was about training and eating and the drinking water. Clarence Jones, the trainer, has a special mixture he prepares for the boys this year. It contains various minerals which replace those the boys perspire out of their systems. They drink at least two glasses on finishing practice.

The old-timers will, no doubt, squawk loudly at this, but it seems to me that Jonesy has cheated nature. A great deal of salt, for instance, is perspired out of the athletic frames of the boys and Jonesy will put it right back. As I see it, there is going to be quite a battle this year between the forces of nature and Jonesy, the trainer. But Jonesy, with his keg of drinking water, is the favorite at 3 to 2.

The Bulldogs are going to have plenty of salt and calcium and the like.

Mr. Mehre mentioned the fact that the spring practice was the best in years and that the positions were all very open indeed.

Finishing this the boys charged out for the first workout of the 1935 season and the Bulldogs were started on the job of working out their destiny.

Mr. Herman Jerome Stegeman and I listened intently to see if we could hear the wings of the Goddess of Luck as the practicing began. When one starts on the business of working out destinies it is a good, practical idea to have a little luck to help out.

We weren't quite sure. There was a slight rustling noise. It may have been the Goddess of Luck.

PLENTY OF GOOD KICKING.

After putting an astigmatic eye on the first day's kicking, I am willing to wager no foe outkicks the Bulldogs this fall. The kicking was so extraordinarily good for the first day out that it led to an investigation. Most of the boys have been doing some kicking at home. And I do not mean kicking about meals or getting up early.

John Bond, Maurice Green and Bill Hartman, the latter a sophomore, were each getting good, long kicks down field. Bond especially was in rare form. It was easy to foresee that the Bulldog foes will do a lot of receiving kicks this fall.

And as long as any team has a good array of kickers it will not be a bad defensive team. It can do a very good job of keeping the other fellow busy trying to work the ball back up field.

The gentle art of quick-kicking is something else to consider, also. And Bond does not have a superior at that style. I suppose Green and Hartman can learn.

TRIPLE THREATS.

It is my idea that the ends and tackles and their play will decide what the Georgia team does this year. If they come through for Harry Mehre he will have himself a football team. It will not be a crushing team but it will be one which will run the tongues out of the other eleven.

His attack, if the tackles and ends develop, is sure to be deceptive. Because this year he has speed and lots of it; kicking and lots of it; passing and lots of it. His opponents can never be quite sure in their minds whether the Bulldogs are going to pass, run or kick, and as long as this uncertainty exists the Bulldogs will have an advantage.

I have known coaches to go for several seasons without a real kicker, for instance. And this year Mehre has three of them. Two of them, Hartman and Green, are fullbacks, and Bond is a halfback.

They are unusually good kickers. And I would say Mehre has at least three more boys who are good, run-of-the-mine journeyman kickers.

But I would not mean to paint too bright a picture as yet. Because if his ends and tackles do not develop as they must, he will have a difficult time with his defense and offense.

The runners do not go very fast with an opposing tackle or end in their laps, and the kickers do not kick very far with the chest of an opponent tackle in their faces, and the passers do not throw very far when the other team's ends have hold of their legs.

But if Mr. Mehre can get himself some tackles and ends he will be a very severe pain to one and all on his schedule.

CARDS AND CUBS MOVE HOMEWARD FOR LONG DRIVE

Giants Face Tough Going in Final "Stretch."

By Eddie Briets.

NEW YORK, Sept. 3.—(AP)—Washed out all along the baseball front, the 16 major league teams were rolling eastward and westward tonight to begin the 1935 stretch drive.

National league teams, with three contenders promising a dog fight right down to the tape, begin long stands in the west. The scene of the rather one-sided race in the American league, shift to eastern arenas.

Two of the National league favorites—St. Louis and Chicago—have a big advantage in their three-cornered duel with New York. For the next two weeks the Cardinals and Cubs perform in their own orchards whereas the Giants must play their next 15 games in alien territory.

The Giants open a four-game set in Cincinnati tomorrow and then proceed to Pittsburgh for four jousts with the troublesome Pirates. From there they invade St. Louis for their final battles with the Cardinals, then wind up their last western invasion with four games in Chicago.

The Pirates apparently shot their pennant bolt when their fine winning streak snapped recently. They are now eight games behind the league-leading Cardinals, but still capable of throwing plenty of monkey wrenches into the well laid plans of Messrs. Bill Terry, Charlie Grimm and "Famer Frank" Frisch.

Although their sparkplug, Pepper Martin, was injured in a night game at Cincinnati last Saturday, the Cardinals are confident their 28-game home stand will build up a lead that neither the Giants nor Cubs can menace.

Frisch's men have nine straight games with the Braves and Phillies beginning tomorrow and they hope to clean up at the expense of these clubs before taking on the Giants in a series that may just about clinch the pennant, on September 12.

Meanwhile, the Cubs have a chance to pick up some ground in 12 straight battles with the Phillies, Braves and Dodgers.

In the American league, with first and second places as good as in the bag for the Tigers and Yankees, there is a hot fight on among Cleveland, Chicago and Boston for third and fourth money.

Already nine games to the good, the Tigers expect to fatten their lead in five games with the Athletics, opening with a double-header tomorrow.

When he resumed regular training tomorrow, the former heavy-weight champion plans to increase his boxing six rounds daily. To take care of the extra sessions, Manager Anell Hoffman is looking around for additional sparring partners. Yesterday Max battered all three of his men, Tony Canela, Lou Scozza and Cecil Harris, severely, the latter jumping from the ring after Baer landed a vicious right hand on his chin.

Dixsteel Nine Plays Henry Grady Today

Dixsteel and Henry Grady baseball teams in the Atlanta Commercial league will meet at Glenn field this afternoon in a postponed game. This will be the final contest of the season. Shomake and Burns are the probable pitchers.

Dixsteel has a chance to tie for second place with White Pro-gun in the last half of their Grady-Gulf Refining won the last half flag and will meet Dixsteel, first flag champs, in a series for the league title in the near future.

Grrrrr! Gangway for the Bulldog Fullbacks

Look at 'em growl. These two Bulldog fullbacks, Bill Hartman, left, and Maurice Green, right, were photographed yesterday in Athens as the first practice was held for the Georgia squad of 1935. Hartman and Green both kick, pass and run well. This is a Constitution staff photo by George McCrary.

BLETHEN WINS OVER SCHMIDT IN FIRST GAME

Joe Hutcheson Hits Home Run in Third With One On.

KNOXVILLE, Tenn., Sept. 3.—Although outitting the Smokies with plenty to spare, the league-leading Atlanta Crackers got off to a slow start in their series opener with Knoxville today, dropping a pitcher's battle between big Jim Lindsay and Climax Blethen, 4 to 3.

The Smokies' winning margin was the direct result of a wild throw to first by the usually steady Buster Chatham in the fourth inning. With Dick West on a second as a result of a single to center and Blethen's sacrifice, Bonner grounded to Chatham, who threw to Hooks' right, a little out of reach of the big first-sacker.

The Smoky outfielder continued around the sacks and scored before Alex could retrieve the ball from the right field bleachers. The run gave Knoxville a 4-3 lead and the ball game.

ERRORS FIGURE.

Lindsay pitched a good game for the invaders and, under ordinary conditions, could have won a breeze. He allowed the Smokies but seven hits and issued but two passes. However, two errors figured prominently in the scoring. With Hill's miscue in the third plying the way for two runs.

Old Climax, a former Cracker himself, gave up 10 blows, but managed to keep them fairly well seated except in the third, when Atlanta bunched five safeties, including a home run by Joe Hutcheson, for three tallies.

Hutcheson, recently added to the Cracker squad by means of a trade with Memphis, blasted one of Blethen's clouts over the right field wall, with Hooks on the sacks. Peck Hamel, another ex-Chick outfielder, opened the Cracker half of the third with a scorching double to left and scored on Hooks' single to the same part of the park. The Atlanta first-sacker trotted in ahead of Hutcheson and his round-tripper.

Dave Harris grounded to Blethen for the second out, but Joe Palmisano singled to center and stole second, to continue the rally. Nig Lipscomb worked Blethen for a pass and Chatham beat out a dribbler down the third base line for a hit, and the bases were full, with three runs already in.

GROUNDS OUT.

Lindsay came out and might have won his own game, but Bonner gobbled up the Cracker boxman's grounder to force Chatham at second and retire the side. After this five-hit outburst, old Climax put his tobacco over in the other check and finished the game without another run scored against him.

Lindsay and Hamel singled in succession, to threaten in the fifth, but Blethen tightened up. McCaskill, hitting for Lindsay in the eighth, nicked Climax for a double, a wild left field fence, but in the other innings the Crackers could do nothing.

The Smokies took a one-run lead in the second on a double to left. Maxwell's infield hit over second and West's single to deep short. The margin was increased in the third and Knoxville added another pair runs on as many hits.

Bonner led with a walk, went to second on Chatham's error on Blair's grounder, went to third as Stebbins beat out a hit, scored and moved on Deal's outfield fly. Head sent Blair home with a double to left.

Head, who followed the fourth inning with Chatham's wild left throw to first, allowing the winning run to score.

The Crackers produced a hustling outfit this afternoon and looked more formidable than on their last trip to Knoxville. Their new red caps presented a striking contrast to the red of Chatham's wild left throw to first, allowing the winning run to score.

The Crackers and Smokies clash Wednesday in a double-header, and conclude their four-game series Thursday afternoon in a single game at Smithson stadium.

Pirates Recall Earle Browne

LITTLE ROCK, Ark., Sept. 3.—(AP)—Officials of the Little Rock Baseball club, of the Southern association, announced today the recall by the Pittsburgh Pirates of the first baseman, Earle Browne, of the Travelers. Browne was optioned to the Pebs last spring and has been the club's leading hitter. He was ordered to report to the Bucs at St. Louis immediately.

Manager Doc Prothro, of the Pebs, also announced the suspension of Ray J. Rice, second-string catcher, and signing of Bill Pritchard, pitcher from the Jackson club of the East Dixie league.

MAX BAER RESTS FROM ROUTINE

Continued From First Page.

It was at the rate of 298.013 miles per hour.

On his first streak over the 13-mile straightaway Sir Malcolm attained the amazing speed of 304.311 miles an hour, which nearly equaled the United States airplane record of 304.95 but was well under the world plane speed mark of 423.822.

Just as the morning sun mounted the heavens, Sir Malcolm rode his six-ton mechanical monster down the 200-foot wide stretch, centered by its black line oiled into the surface. Like a black ball it appeared on the western horizon, then flashed over the measured mile.

More than a thousand spectators thrilled to the fastest speed the world has ever known on the ground.

Just as he hurried past the last measured mile flags, death stared him in the face. The left front tire of his tin-tailed blunderbuss blew out with a noise like a rifle crack.

Sir Malcolm was going at a 300-mile an hour clip. The big machine swerved slightly off the guide line.

Back Under Control.

A quick twist of the wheel and blunderbuss was under control, again traveling true on the course.

The little man with the boundless courage rode his bumping mount down to a halt.

For one who had been perilously close to the turning off point to eternity, Sir Malcolm betrayed no concern.

His chief worry was the necessity of a quick change of tires, for the return spin necessary to compute an average and a new record.

"Hurry, boys, hurry," he exhorted his mechanics. "We've got to make a quick change or the hour will be up."

The rule for record attempts of this kind permit only an hour for the two runs.

Eight minutes were left of the important hour when Campbell gave his blunderbuss the gun on the return dash.

Half-Mile Short.

His approach to the measured mile on this trip was free and one-half miles. The blunderbuss had caused him to stop half a mile short of the eastern terminus of the graded track.

This half mile difference, Sir Malcolm said later, was partly responsible for him not reaching the 300-mile average. A cross wind also checked his speed slightly.

Pumped steam pouring into the cockpit when he closed the ventilator, and a spray of salt when he opened it, contributed to slower time on the second run.

He boosted his own five-kilometer record during the two runs today to 295.0309 miles per hour, far exceeding the old speed of 257.295 made last March at Daytona.

Donald Campbell, 15-year-old son of the speed king, embraced his father with tears in his eyes. An automobile in which the boy was rushed to the finish line caught fire but was quickly extinguished.

Sir Malcolm smiled and said he would telephone Lady Campbell in London when informed she had said it was a "pity it couldn't have been 300 miles an hour," and expressed the hope he would do it "and come home."

Speer, Wycoff Battle At Ball Park Tonight

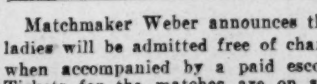

Frank Speer and Doug Wycoff, two former outstanding Georgia Tech football heroes, will meet in the 90-minute feature match at the Ponce de Leon park tonight in what promises to be one of the best matches staged under Matchmaker Henry Weber's banner in many a season.

A one-hour match and a 30-minute opener round out the card. Jimmy Coffield and Jack Kennedy will meet in the opening match and Vernon Baxter will match holds with Roland Kirchmeyer, the rough cowpuncher, in the hour match.

With the two former Jacket stars clashing in the feature Matchmaker Weber is preparing for one of the largest crowds of the season. The advance tickets sale is reported as being very brisk and fans are urged to get their tickets in advance to avoid the late rush at the ball park.

Speer will have a slight edge in experience and weight but what he lacks in this Wycoff will make up in fight. This is the match Wycoff has been looking forward to and promises his friends a real battle. There will be many at the ringside "pulling" for the former Tech fullback against the All-American tackle from the Flats.

Speer has been bowing over all opponents lately with his rough tactics and there are quite a few customers who would like nothing better than to see Wycoff take him apart tonight. Any way the match goes the fans will see one of the liveliest scraps in some time.

DOUG WYCOFF.

Matchmaker Weber announces that ladies will be admitted free of charge when accompanied by a paid escort. Tickets for the matches are on sale at the Piedmont Hatters on Peachtree and will be placed on sale at the ball park at 8 o'clock. The first match starts at 8:15 o'clock.

Eubanks New Tech Captain; Georgia Looks to Tackles, Ends

HOOT GIBSON IS ALTERNATE IN ELECTION

Popular Tackle and End To Lead Jackets This Fall.

By Jack Troy.

Georgia Tech varsity players yesterday chose a tackle and an end to lead them into the football fray this fall.

Dividing the squad of almost 50 players and sending the Gray Devils over to a corner of the field with Coach Roy MacArthur, Coach Alexander then assembled the varsity men, produced paper and pencils and asked for a vote on captain and alternate.

Lefty Eubanks, popular senior left tackle from Macon, was voted captain. Hoot Gibson, equally popular senior right end and former Tech High athlete, was selected as alternate.

The election, like last year's, was totally unexpected. Not even the players themselves knew it was to be held. Coach Alex simply called them together and asked for a vote. Jack Phillips, fullback, captained last year's team. But the decision went unanimously to the linemen yesterday.

VOTING DECISIVE. The voting was decisive for both Eubanks and Gibson. John Wilcox, guard, was third in the voting.

Eubanks was hampered by an injured shoulder a great deal of the time last season. He is fit and ready this year. Gibson shows promise of being one of the best ends Tech has had in some time.

Sundial Martin, halfback, was still running himself somewhere in the Carolinas yesterday. Said Coach Bobby Dodd: "I'm going to give that fat rascal a licking when he finally does report."

The only other absentee was R. E. Hood, a center, who is working for a baking company here. They say the reason Hood hasn't reported on time is because Dutch Miller likes him too well as a cashier.

PUNTER NEEDED. There was the customary track pants drill yesterday, looking toward the conditioning that will enable the coaches to haul out the uniforms and start the real work. There was much work in signal drill.

A dependable punter is sorely needed. Lawrence Hayes appears to be getting the best distance. Harry Appleby and Sims are the next best kickers.

Coach Dodd is putting in a lot of time with the kickers and passers. There is much to be done in this department.

RICH'S LOSES TO SCOTT, 11-3

Rich's jumped on Sam Elliott, Trammell Scott's star hurler, in the first inning of their game in the FERA softball meet at Grady field last night for three hits and two runs to take an early lead.

But they could not hold it. In the fourth Trammell Scott pushed over four tallies on three hits and as many errors and, with Elliott having settled down to allow only three more hits, one run, and fan 18 batters during the remainder of the game, the Yellow Caps easily won, 11 to 3. In addition to Elliott's pitching Leftwich starred for Scott, closing two home runs.

The twilight game, the first of the triple-header, was fairly good. The Goodyear Mills, of Atco, Ga., sent East Thomaston home on the short end of a 3-to-2 score. Garrett and Lindsey blasted homers for Goodyear and Bowden led the loser's attack with a triple to deep right.

In the last game, Whitney Mills, of Spartanburg, S. C., buried the Aniston Star under an avalanche of runs, winning handily, 21 to 1. The only thing to be said for the Alabama was that it was death to hit a ball to Reynolds, their left fielder. He handled nine chances perfectly.

Tonight the powerful Waverly, Fla., team clashes with the heavy-hitting Ramblers, of Belmont, N. C. This should be quite a contest.

Southern League

CHATTANOOGA, Tenn., Sept. 3.—Shirley Eiland pitched the Yols to a 3-to-2 victory in the series opener here today giving up but eight very well scattered hits.

SPARTANBURG, S. C., Sept. 3.—Whitney Mills, of Spartanburg, S. C., buried the Aniston Star under an avalanche of runs, winning handily, 21 to 1. The only thing to be said for the Alabama was that it was death to hit a ball to Reynolds, their left fielder. He handled nine chances perfectly.

Waverly, Fla., Sept. 3.—The powerful Waverly, Fla., team clashes with the heavy-hitting Ramblers, of Belmont, N. C. This should be quite a contest.

MATCHES POSTPONED. PHILADELPHIA, Sept. 3.—(AP)—Rain forced another postponement of the opening matches of the girls' national tennis championship today. Officials said the matches will get under way tomorrow.

To Lead Jackets This Fall

Lefty Eubanks, of Macon, top, will captain the Georgia Tech eleven this fall. Eubanks was chosen by teammates yesterday afternoon. The husky left tackle is seen as an able and popular leader. Hoot Gibson, Atlanta boy, below, was named alternate captain. He is one of the better ends. Staff photos by Kenneth Rogers.

Sophomore Backfield In Prospect at Tech

Sims, Appleby, Edwards and Konneman Form Likely Quartet at Flats.

By Jack Troy.

Reading from left to right and vice versa, one may find an all-sophomore backfield answering the slow whistle in the Georgia Tech games this fall.

There is going to be a lot of dependence put in the sophomores out at the Flats. They already are helping the spirit, which gets better and better as the days roll on.

Watching them speed around in practice, one gets an idea that a sophomore backfield including Sims at quarter, Appleby and Edwards at the halves, and Konneman at fullback, would not be at all out of place. Sims and Appleby can kick and pass.

Practice is, of course, only in the experimental stage at this time and lots of things may happen before the opening game. But it is not a bad idea to string along with the sophomores. They're going to be strong factors in the Jackets' games.

Charles Preston, a seasoned noticer in every respect, is pretty well set at the center position. The ends are good. There are Gibson and Thompson, two excellent wingmen. And to add to them there are Jordan, Jones, Morgan and others. Jones is just as apt as not to win himself an end position, adding another sophomore to the varsity eleven. Coach Mack Tharpe is well pleased with the end prospects.

John Wilcox is pretty sure to be at one guard position with the other to be decided among Fitzsimmons, Britton, Nixon and Glendenning.

Captain-elect Eubanks, Lindsey and Chance are leading tackles. The newcomers, Roberts and Roney, will offer a battle.

Nothing is set at the Flats. Positions are not awarded; they must be won. And it is going to be very interesting to see the scraps once the scrimmages are begun.

Oglethorpe Practice To Be Started Today

Oglethorpe football practice will begin a day late owing to the fact that when time came for the start yesterday there were only two players registered for the school year.

Most of the squad of 23 players had enrolled before the day was over, however, and Coach John Patrick will hold the first workout this morning. Another drill will be held in the afternoon.

Among the arrivals was Cecil Moon, halfback, who will join the squad today. It was thought at first that Moon might not return. Because of numerous withdrawals, Coach Patrick will virtually start from law this morning at 10 o'clock.

The opening game is with Newberry College on September 25 at Ponce de Leon park at night.

SHI AND HARMON WILL NEED AD AT POSITIONS

Maffett, Troutman Good Additions to Wagon, Ashford at Ends.

By Ralph McGill.

ATHENS, Ga., Sept. 3.—"Why, hello, Herb," said your visiting correspondent, as the ends trotted forth at Georgia yesterday in the season's first practice. "What in the world is Herb Maffett doing back here for a workout?"

"That," said Harry Mehre severely, "is not Herb Maffett. It's my brother, Otis. He's a sophomore end." I insisted on seeing if Otis had that mole on his left ear which Herbert had. He didn't. It must be Otis. But he looks so much like Herb that I felt it was 1939 and I was seeing the great sophomores of that year get going.

It may be an omen. Because Harry Mehre needs ends more than anything else. Unless it's tackles.

Tackles and ends are the boys who must come through for Georgia. And at least two sophomores, Otis Maffett and Henry Troutman, the latter of Atlanta, look very good to add to Henry Wagon, Alex Ashford and others.

NEED GUARD AIDS. At tackles Allen Shi and Harry Harmon return but they must have some help. Harry Mehre is looking for his sophomore replacements with eager eye. Clayton Wilhite, of G. M. C.; Tom Haygood, of Atlanta and M. A. Foster, of Lake City High, and Claude Geer, of Albany, were very eye-catching to me. And Harry Mehre should get some help from that group.

In 1933 I used to gurgle with delight at the work of a guard named Leroy Morehead. He was hurt and out all the 1934 season, but he's back again this year and looking good. That will help out the guard situation. Frank Johnson, the regular at one position, is probably the best guard in Dixie.

Coach Mehre has speed in the backfield—John Bond, Glenn Johnson, Al Minor, Alf Anderson, Charley Treadway, to mention a few of the veterans, and Seab Roddenberry and Bill Hartman, to mention at least two sophomores. Then there is "Vern" Young, the quarter, and Jimmy Cavan and Paul Causey. No goodness, there's lots of speed in there.

GREEN CAN KICK.

And no one will outkick Maurice Green, the fullback, who is pretty fast, too, now that I think on it. He tossed the pass that paved the way for victory over Tech last fall. He is fast, kicks and runs. He and this sophomore Bill Hartman, who also runs, kicks and passes well, will be two fullbacks at which to gaze.

All of which reminds that Johnny Jones, an ex-fullback, is at halfback with lots of speed.

Bond, Hartman and Green make up a kicking trio which no one team will surpass. Georgia will have kicking and passing.

Charley Treadway, the thinking quarterback, who called the series of signals which beat Tech last fall, is back at quarter.

You might think on one backfield over there as Treadway at quarter, Bond at left half, Minor at right and Green at fullback.

COMING RIGHT BACK.

And come right back with Young or Roddenberry at quarter, Al Anderson at left half, Glenn Johnson or Jones at right and Hartman at fullback.

Speaking of Alf Anderson, there's the passer for you. No one was better than he last year. And with that experience he should rifle the boys to lots of victories this fall. It would not surprise if he turned out to be another Dixie Howell in so far as flinging passes is concerned.

Which brings us right back to the problem of ends—and tackles. They will supply the answer this fall.

Georgia Opens With Full Squad.

ATHENS, Ga., Sept. 3.—Coach Harry Mehre today began the task of moulding a Georgia Bulldog grid machine that can, after four comparatively easy starts, successfully cope with such behemoths as Alabama, Tulane and L. S. U.

With practically every player expected reporting, the Bulldog mentor set to work seeking replacements for such dependables as John Brown, guard; Buck Chapman, fullback, and Cy Grant, halfback. These were among those lost from last season. Although the first few days of practice will be light, the linemen will don shoulder pads Wednesday. Signal drill and limbering up exercises will occupy the Bulldogs at the two physical workouts Wednesday morning and afternoon. At 12 will come the actual drudgery with Coach Mehre doing the instructing.

GROUP TRAINING. After putting aside passing workouts, the Bulldogs today were divided into groups. The tackles and guards were learning the rudiments of line play under Coach's direction. The backs and Weems Baskin, Coach Vernon Smith was in charge of a large squad of ends. The centers were working out.

Georgia Roster

Ends—Henry Wagon, Boatwick; Alex Ashford, Athens; and Alex Candlar, Atlanta. Lettermen: Tom Miller, Albany; Charlie Harold, Macon; Forrest Townes, Augusta; Otis Maffett, Athens; Henry Troutman, Milledgeville; Phillip Gray, Atlanta; Hugh O'Ferrall, Athens; Greenhaw Bonner, Atlanta; Law Cordell, Athens.

Tackles—Allen Shi, Macon; Harry Harmon, Atlanta; lettermen: J. Glenn Johnson, Savannah; Alf Anderson, Decatur; lettermen: Jim Cavan, Decatur; Paul Causey, De Land, Fla.; Jeff Hollis, Savannah; Guy Miller, Monroe, and Willie Miller, Macon. Lettermen: Robert Judd, Memphis, Tenn., and Rob Kimbrell, Athens; J. C. Hall, Spartanburg, S. C.

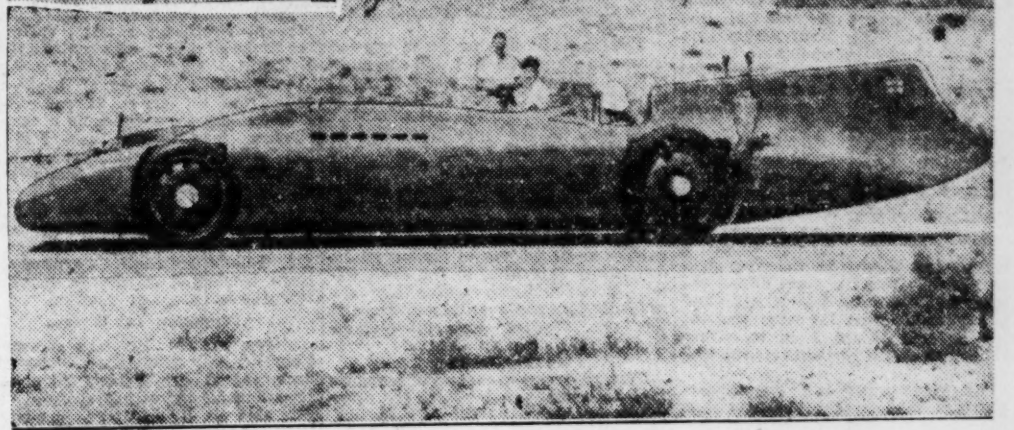

Centers—Captain John McKnight, Toccoa; Rob Law, Waynesboro, lettermen: "Rock" Stone, Athens; Mark Richards, Decatur.

Quarterbacks—Charley Treadway, Thomas, lettermen: Vincent O'Malley, Chicago; Seaborn Roddenberry, Macon; Lynne Brannen, Athens; Law Young, Memphis; Marvin Gillespie, Elberton.

Halfbacks—Captain John Bond, Toccoa; Al Minor, College Park; lettermen: John Johnson, Savannah; Alf Anderson, Decatur; lettermen: Jim Cavan, Decatur; Paul Causey, De Land, Fla.; Jeff Hollis, Savannah; Guy Miller, Monroe, and Willie Miller, Macon. Lettermen: Robert Judd, Memphis, Tenn., and Rob Kimbrell, Athens; J. C. Hall, Spartanburg, S. C.

Fullbacks—Edwin Holland, Collins, and Bill Hartman, Milledgeville.

King of Land Speed Attains His Goal

Sir Malcolm Campbell, the gallant Britisher, achieved his super-speed goal yesterday when he established an amazing record of 301.337 miles per hour in Mighty Bluebird over the Salt Flats of Utah. On his first run he reached the speed of 304.311, covering the measured mile in 11.83 seconds. The steel-nerved driver did not announce whether he would try to better this mark, which he has been seeking on various race courses for years. Associated Press photo.

BRITTON CLOSES VOL PRACTICES TO THE PUBLIC

All Tennessee Drills To Be Private; Full Squad on Hand.

KNOXVILLE, Tenn., Sept. 3.—(AP)—The University of Tennessee Volunteers got down to heavy training behind locked doors here this afternoon after more than 1,000 fans witnessed a morning session. Major Bill Britton said the remaining practice grids would not be open to the public.

Vernon Tansil, end, reported for the afternoon session rounding out the list of returning lettermen.

A light training schedule Wednesday will be followed by "extra hard work" Thursday, Major Britton said. The new mentor also expressed himself as being pleased with the early-season condition of the entire squad.

Threescore Greet Florida Coach.

GAINESVILLE, Fla., Sept. 3.—(AP)—The 1935 football squad of the University of Florida went into action today as nearly threescore athletes appeared for the first call to fall practice.

The initial workout this afternoon opened a practice schedule which Head Coach Dutch Stanley said would include two sessions daily until the opening of school.

Stanley ordered the squad to the practice field gain tomorrow morning at 8:30. If hot weather interferes with daytime workouts, he said, night practices will be held.

Coach Stanley said he was pleased

DREWRY'S

present

HALF

(ALE)

AND

HALF

(STOUT)

for the first time in America

Take the world over, and Half-and-Half is probably the most popular drink. And yet, unless you know what Half-and-Half is, it is downright silly to describe it to you.

We can tell you what is in it. We take our regular Drewrys Ale—to this we add an equal amount of Stout. It's a simple cause, but an amazing effect.

We have been two years almost to the day plotting and planning to make this

drink. First, we made Drewrys Ale—made it the way it should be made, and told the people of this country about it.

Then we made Stout. THEN—we blended the two drinks—blended them exactly right—blended them into the grandest drink ever!

Drewrys Half-and-Half is ready for you today at every place where fine drinks are sold. If you like, call us up and we will arrange to have a case sent to your home. It costs no more than our Ale.

LETTER CARRIERS' HEAD WINS POINT AT MEET

President Favored 3 Members on Teller Committees Instead of 4.

CLEVELAND, Sept. 3.—(P)—Edward L. Gann, president of the National Association of Letter Carriers for 20 years, won a skirmish today as the organization's convention opened its business sessions.

An amendment to the rules under which the president would appoint five teller committees of four members each, with the so-called "progressive" group in the organization entitled to two members on each committee, lost by a vote of 619 to 375. The committee will be composed of three members.

Five resolutions were adopted today. Those endorsed the longevity salary principle; restriction of the use of mail boxes, as previously recommended by the Atlantic City convention of 1934, and an amendment to the present compensation law to cover injuries of carriers going to and from work.

Another resolution called upon national officers of the association to sponsor a law compelling all mail matter to be delivered through the mail. A fifth instructed the officers to use their efforts to obtain legislation granting compensation with the first day of injury and for full compensation during such periods.

THIRD BOND HEARING SET FOR ORAN DODD
Oran Dodd, Atlanta beer dealer under indictment for murder, will have another bond hearing at 10 o'clock Thursday morning before Judge Virlyn B. Moore.

Dodd, accused with Ralph Owens of killing Peter Heath Jr., a negro, on Garnett street, has been denied a bond twice, but yesterday his attorneys, Paul Etheridge and Albert G. Callaway, presented a third petition to show that Dodd is dangerously ill and cannot stand a prison life until October, when his trial will be held.

Solicitor-General John A. Boykin protested against bond being allowed the beer distributor. He will have the man examined by physicians to determine his physical condition, he said.

A Transplanted Touch of Southland Reveals Itself Along the Amazon

Rev. H. E. Russell Tells Rumored Story of Dixie Resident Who Shot Himself When His Children "Went Native;" Manaus Is Next Port of Call.

This is the tenth in the series of interesting articles written in South America for the Constitution readers by the Rev. H. E. Russell, of McDonough, Ga. Mr. Russell is the son of the chief justice of the Georgia supreme court and the brother of United States Senator Richard B. Russell Jr. His South American travels are described daily in The Constitution.

NINE HUNDRED MILES UP THE AMAZON, Aug. 10.—This morning as the first streaks of dawn were spreading themselves over the river and jungle I recognized a spot that I had been looking for. It was the home of one of the many southerners who came to this country at the conclusion of the War Between the States.

This is a home-stead or ranch of this son of Dixie was situated in a spacious clearing that reached far inland upon a plateau that rises from the river in a sheer bluff. Majestic trees dotted the grassy tableland over which cattle and stock grazed. Near the river was the mansion and to the back on either side were servant quarters, barns and out-houses.

The whole scene had the appearance that it possessed the remoteness and shaded comfort that is characteristic of the well-kept southern farm.

Story Behind It.
The rumor continues that the builder of this jungle-covered land shot himself at the age of 60, having grown dependent because his children by a Brazilian wife were growing up as worthless as the natives. His estate was just out of Inocantara, the last of the four principal ports on the route up from Belém to Manaus.

There are three reasons given for the exodus from the south after '65. One is that many of the southerners were disgruntled at the loss of the

"lost cause" and deemed it undesirable to live in the United States after Appomattox. Another is that they considered slavery as an essential to their economic welfare and they could own slaves here until May 13, 1888.

The last reason given is that, having lost all at home, it was necessary to make a new start elsewhere and they naturally chose a land that was suitable to the type of agriculture with which they were familiar. No doubt all of these reasons entered into their decision.

New Scenery at Hand.
After we passed the "narrow" several days ago we entered what may be termed the main stream of this gigantic waterway. No longer does the jungle hem the ship, in but it has now receded until it is no more than a band of purple haze bordering the sea-river up which we are sailing. Here they speak of the Amazon as the River-Sea.

The ship is moving in a zig-zag course in its efforts to avoid the main current of the stream which is swift enough to greatly retard the speed of the boat.

As we near the shore from time to time birds of all colors, size and shape are seen in and out of their forest home. Cranes, egrets, ducks, hawks, parakeets, parrots and scores of other types are on all sides.

Huge fish leap clear of the river's surface and flash for an instant in the sun before returning to the dark water. Occasionally the water is broken suddenly by some aquatic monster and the cry "jacaré"—crocodile—jumps from the throat of an observer.

Monkey Chatter.
Toward dusk the chatter of monkeys may be heard, mingled with the other jungle sounds that drift over the water on the musk-laden air. The color of the jungle speaks silently of the process there, decay and bloom the year round.

We have now come to the confluence of the Rio Negro and the Amazon. For miles a distict line is drawn by the meeting of the black and yellow waters. We turn here up the Rio Negro for nine miles to Manaus which is located on the left bank of this black stream.

Tomorrow—A mirage—but it's a city.

QUEEN ASTRID BURIED IN CRYPT OF ROYALTY

King Leopold Limps 3 Miles Behind Hearse Bearing Consort's Body.

BRUSSELS, Sept. 3.—(AP)—The body of 29-year-old Queen Astrid was buried beside those of Belgian monarchs today in the royal crypt under Laeken church.

Beside her was placed a wreath of her favorite flowers—orchids—a final gift from her husband, King Leopold.

Leopold himself, dried-eyed and his face pale and drawn, limped behind the hearse on the journey of nearly three miles from the palace to Ste. Gudule cathedral. He was bare-headed and his right arm was in a sling. Once he stumbled and nearly fell on the cobble-stoned street.

Duke of York Present.
Near Leopold walked other members of European royalty, including the Duke of York, representing Great Britain.

Only the clattering of hoofs and sobing from the crowd of more than 300,000 sorrowing Belgians broke the silence. The funeral was held six days after an automobile driven by the queen, George A. Sloan, former president of the Cotton Textile Institute, killed the queen.

The nation's high and low dignitaries from nations of the world mingled in the impressive service at Ste. Gudule cathedral. Cardinal Van Roye conducted an hour's mass before the ceremony at Laeken.

Daughter in White.
Seven-year-old Princess Josephine Charlotte, eldest of the queen's three children, sat at her father's right on a throne inside the cathedral choir. She was clad wholly in white, in contrast to the black-robed women and brightly uniformed princes.

Tears rolled down her cheeks at times. Leopold buried his face in his hand and wept at the service. The coffin bore this plain inscription on a silver plate: "Her Majesty, Astrid, Queen of the Belgians, 1905-1935."

ABIT NIX TO SPEAK AT LODGE MEETING
Fulton Group Will Hear Deputy Grand Master Tonight.

Abbit Nix, of Athens, deputy grand master of Georgia, will be the principal speaker at 6:30 o'clock tonight when Fulton Lodge No. 216, F. & A. M., will hold its regular meeting. Nix is a member of the Masonic temple, to all other lodges in the city.

Judge E. D. Thomas, most worshipful grand master of the lodge, will introduce the speaker. The degree of master Mason will be conferred, it was announced. Irving H. Goldstein, worshipful master of the lodge, said he expected a large crowd and urges all Masons to be on time.

Joseph Lazear, secretary of the lodge, announced that refreshment will be served in the banquet hall. Mr. Nix spoke before members of the Modern Woodmen of America Monday, urging united support of President Roosevelt's policies.

ELKS PLAN FISH FRY FOR 5,000 SATURDAY
Second annual fish fry of the Atlanta Elks will be held Saturday at Grant park, with an attendance of more than 5,000 expected, it was announced last night.

The fish fry will be held during the afternoon and beginning at 7 o'clock a dance and entertainment will be held. The Elks are being sponsored for the benefit of the Elks' charities.

At the first fish fry last year an attendance of 5,000 was reached, and advance sale of tickets this year indicates an even greater attendance this year, it was announced.

Ford Sales Contest Winners Leave for California

Fifteen Atlanta branch territory Ford dealers and retail salesmen left Monday for the California International Exposition as guests of the Ford Motor Company. The trip was awarded to winners in a two-month sales contest for the greatest number of cars sold according to territory and potential prospects.

The group spent Sunday in Atlanta as guests of E. D. Bottom, branch manager. Front row, left to right, E. C. Dykes, Dalton; Frank A. Dennis, Eatonton; Mrs. J. T. Perry and Mr. Perry, Bessemer, Ala.; Mrs. C. L. Pitts and Mr. Pitts, Augusta. Back row, left to right, M. L. Jones, Ford Motor Company; W. C. Barnett, Warrior, Ala.; Lamar Blow, Hartsboro, Ala.; D. S. Etheridge, Chattahoochee; Roy Stephens and Mrs. Stephens, Thomaston, and J. A. Latimer, Newnan.

Healthy Demand for Cotton Goods Will Hasten Recovery of Industry
With a healthy demand for textile goods rapidly returning to the markets of the world, proper balancing of production with the demand by the individual mills and proper co-operation on the part of selling agents, can bring quick recovery to the cotton textile industry, George A. Sloan, former president of the Cotton Textile Institute, said in Atlanta yesterday.

Mr. Sloan, president of George A. Sloan & Company of New York, one of the largest textile-selling houses in the world, was in Atlanta on business. He also was head of the textile industry, but since the supreme court decision abrogating the NRA has decided his entire time to his business interests.

Yarn Market Improves.
It is largely as a result of the industry's efforts this summer in avoiding the accumulation of surplus inventory that there has come a marked improvement in the marketing of yarns and fabrics, Mr. Sloan said.

He then pointed out that, including the National Youth Administration, savings and loans, a conservative estimate of the amount invested in the cotton textile industry is \$1,000,000,000. For the five years of 1929-32, inclusive he said the aggregate deficit of the industry was approximately \$175,000,000, while it is believed, with reliable figures not available, that the deficit is now less.

COX COLLEGE TO OPEN WITH BIG ENROLLMENT
Cox College will open this year with a large enrollment. Students have enrolled in larger numbers than ever before and many select students are entering the college this year.

Three girls are coming from Cuba and registrations are coming in daily from Georgia, Florida and Alabama. This year there are more registrations from Atlanta than ever before. Many of the graduates of the college are high school seniors.

Several new members have been added to the faculty in the regular college as well as the high school and the conservatory of music and arts will have one new professor of outstanding reputation and ability to add to the present excellent faculty. All faculty members of last year will again be at Cox College this year.

Cox College is also co-operating with the National Government through the National Youth Administration and by this means the college is offering a limited number of government aid scholarships to deserving girls.

The college is proud of her progress and feels that Atlanta and the thousands of friends and the alumnae in the south will rejoice with the college at this new prosperity and progress.

VETERAN JOURNALIST, LOUIS N. GELBERT, DIES
Louis N. Geldert, 74, veteran journalist and author, died yesterday of a heart attack at Memphis, he was stricken Friday.

He had been president for 18 years of the Cotton Oil Press, official journal of the National Cottonseed Products Association and was a former reporter on the Boston Globe and publisher of an insurance magazine in Chicago.

A native of Windsor, Nova Scotia, he had been a personal friend of Herbert Hoover. His wife, the former Grace Duffie Boylan, noted author, passed away last March. She had won world-wide fame with her book, "The Son Lived."

LABOR BODY IS VOTED BY ALABAMA SENATE

New Department Would Be Required To Open Employment Offices.

MONTGOMERY, Ala., Sept. 3.—(AP)—A bill creating a State Department of Labor was passed, 24 to 3, today by the Alabama senate, sending the measure to Governor Bibb Graves who sponsored its introduction and enactment.

The department is charged with "promoting voluntary arbitration" among other things, and would be required to open free employment offices over the state.

An appropriation of \$20,000 yearly is carried in the bill for expenses of the new department.

The senate also passed the last of a series of bills designed to free the state's 15 toll bridges, and Senator W. T. Starnes, sponsor of the measure, predicted actual freeing by mid-October.

There were no opposition votes and the bill now goes to Governor Graves. It provides for reorganization of the State Bridge Corporation and the refinancing of its obligations at an interest rate of not more than 4 per cent.

UPURNS ARE SEEN FOR TEXTILE TRADE
Uncertainty Disappeared by 10-Cent Loan, Says Institute President.

NEW YORK, Sept. 3.—(AP)—Things are looking up for the cotton textile trade, and prospects are more encouraging than for some time past, Goldthwaite H. Dorr, president of the Cotton Textile Institute, said today.

The announcement last week of a definite 10-cent figure for cotton loans, Dorr felt, had done much to relieve the trade of the uncertainty which had been hampering business recently.

He held that the substitution of the 10-cent basis for the former 12-cent loans would not upset cotton goods prices, expressing the belief that the market for fabricated materials had already discounted a lower price for raw cotton.

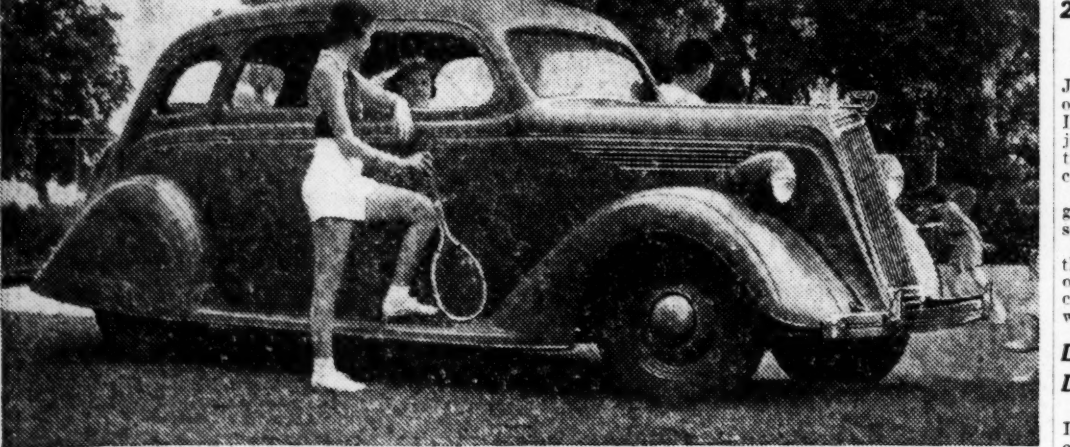

New Store's Cash Stolen.
BROOKTON, Mass., Sept. 3.—(AP)—A thief, believed by police to have been disguised as an electrician, today stole \$5,000 in cash, the receipts of the newly opened Brookton branch of the Enterprise department stores. A man dressed in overalls, who was seen busily testing electrical appliances, disappeared about the time the money vanished.

Amazing new X-RAY System reveals the whole truth about low-priced cars! Proves that LaFayette alone—in the lowest-price field—gives you ALL of the vital features

IN FASCINATING, new pictures, the X-Ray System reveals the whole truth about all leading cars—high-priced and low-priced. You get just plain facts... facts that you as a car buyer are entitled to know. It's fun... and it's a lot safer than buying a car blindly.

If the X-Ray System can show you, for example, that certain features of engineering which are always included in high-priced cars are NOT included in your present car... but ARE included in the new 1936 LaFayette—won't that be valuable information to have before buying the same make of car again?

If the X-Ray System can show you that LaFayette alone in the lowest-price field gives you 6 or 8 vital features that expensive cars never omit... features that make a car run "sweeter" and keep that new-car "feel" for 40,000 additional miles or more—won't you at least want to consider it before putting the same amount of money into another car?

The X-Ray System CAN show you all of these things

BOOK GAME
\$1,800 in Cash Prizes for Book Titles!

BY THE BOOK GAME EDITOR.
Ten days remain for entrants in the \$1,800 Book Game to submit their entries for the cash prizes. This time can be devoted to rechecking the appropriateness of the titles and to preparing extra sets, if this seems to be advisable.

Because of their genuine importance, 10 informative paragraphs previously published here are given again:

1. Book Game answers do not have to be submitted before Saturday, September 14. None will be checked or judged before that date, so there is no advantage in getting them in early.

Thomas B. Paine Leads Cotillion At Greenbriar With New Yorker

By Sally Forth.

THE famous Lee ball and cotillion at the Greenbriar at White Sulphur Springs, W. Va., will live forever as the gayest and most brilliant in 20 years. The occasion marked the sixty-third anniversary of the Lee ball, which had its initial appearance in the social annals of the nation in 1873, with Jefferson Davis, president of the Confederacy, as chairman. The 200 couples taking part were socialites from the entire nation, with, of course, Thomas B. Paine and former Governor and Mrs. John Marshall Slaton representing Atlanta with imperishable honor and unrivaled dignity and beauty.

A cotillion wouldn't be a cotillion without the popular Tom Paine as leader, and up at the "White" last week he added more honors to his record as he led with Mrs. Kenneth O'Brien, wife of Justice O'Brien, of Southampton, L. I. A photograph of the lovely matron, who is a daughter of Clarence W. Mackey, is shown wearing her exquisite crinoline gown and posed with Mr. Paine in today's society section. She wore the same lovely gown when she led the grand march with Henry Waters Taft, President William H. Taft, and directed by Mr. Paine.

Former Gov. and Mrs. Slaton were among the most distinguished visitors present at the Lee anniversary celebration. Sally told you last week about the latter attending the Venice of the Renaissance fancy dress ball and serving on the arrangement committee for the brilliant affair 10 days ago at the "White."

WHEN pretty Frances Latimer becomes Mrs. Pahl Brown and goes to Cincinnati to live, her apartment will be furnished with priceless antiques. Set against cream-colored walls will be the mahogany desk given the bride-elect by Mrs. George Wallace, her maternal grandmother. A mahogany chair, upholstered in red brocade, is the gift of Sarah Hopkins, an intimate friend.

The dining room furniture is the gift of Pahl's parents, Mr. and Mrs. Brooks Brown, who reside in Louisville, Ky. The needle-point embroidery beautifying the chair seats is the handwork of Mrs. L. L. Shivers, whose daughter, Dorothy, will be the maid of honor in the Latimer-Brown bridal procession.

A gorgeous Chippendale sofa is a present from Ben Wallace, an uncle of Frances', and the sofa is upholstered in green brocade.

STUDY

INTERIOR DECORATION

It is not difficult to acquire this knowledge. For the secret of our success lies in the fact that our courses are simply and easily understood, stressing the practical phase along with the theoretical training.

Next session begins Sept. 9th. For information either call or write to THE SOUTHERN PRACTICAL SCHOOL OF INTERIOR DECORATION 627-A Studio Building Peachtree St. at Ponce de Leon MA 6810 and WA. 0138. Atlanta, Ga.

1934-35 Debutantes Meet Tomorrow At Driving Club

Members of the 1934-35 Debutante Club meet informally tomorrow afternoon at 3 o'clock at the Piedmont Driving Club when plans will be formulated for the organization of the club for the coming season. In the absence of the president, Miss Louise Robert, and the vice president, Miss Mary Ann Carr, who are visiting in Charlotte, Miss Maude Thompson, secretary, and Miss Octavia Ryle, treasurer, of last season's group, will be in charge. All members of the club are urged to attend the meeting, and although no business will be discussed, important matters will be discussed for the organization of the new group.

Membership of last year's club included Misses Josephine Clayton, Dorothy Brumby, Grace E. Ann Boyd Croston, Lucy Yandi, Betty McDuffie, Louise Calhoun, Epine Dallis, Deas Smith, Lucia Smith, Mary Irby, Frances North, Laura Troutman, Adelaide Fleming, Rosemary Townley, Mary Spalding Dean, Suzanne Knox, Dorothy Ewing, Julian Boykin, Elzie Grace Brown, Martha Lee Bowman, Ellen Rhodes, Louise McIntyre, Lamar Peshaw, Mary Cobb Hunnicutt, Juanita Gresham, Sara Hewlett, Frances Haven, Jacquette Leggett, Laura Lee Pattillo, Josephine Meador and Mrs. W. Carroll Latimer, the former Miss Frances Weinman; Mrs. Oliver L. Von Cannon, formerly Miss Marion Yandt; Mrs. William Chambers, formerly Miss Rene Chandler; Mrs. Abner Calhoun, the former Miss Kathryn Jetton; Mrs. John Boman, the former Miss Marie Askew; Mrs. Frank Terrell, formerly Miss Barbara Prater; Mrs. James Reynolds, of Greenville, S. C., formerly Miss Mary Thiesen, and Mrs. George Williams, of Cordle, the former Miss Florrie Adkins.

Miss Buelyn Orr Weds Mr. Price.

Of interest to a wide circle of friends is the announcement of the marriage of Miss Margaret Evelyn Orr, daughter of Mr. and Mrs. Charles A. Orr Sr., to Clarence Broughton Price. The ring ceremony was performed by the Rev. H. M. Stronier, in the home of Mrs. Price, at 941 Center street, N. W., Saturday, August 31.

The bride wore a dress of navy blue sheer crepe with matching accessories. Mr. and Mrs. Price are residing at 941 Center street, N. W.

Alfred Colquitt U. D. C. Mrs. Fred Hanson, president of the Alfred B. Colquitt chapter, U. D. C., will announce plans for the fall benefit bridge to be sponsored by the chapter on September 27 at Rich's tea room at the first fall meeting of the chapter tomorrow at 3 o'clock at the tea room. Mrs. Henry Anderson will act as general chairman for the bridge party and plans will also be formulated for the bestowing of crosses prior to the convention in Savannah.

Home-Coming Day.

The Della King Class of the Capital Academy, president of the Home-Coming Day Sunday, September 8, at 9:30 o'clock. Members and former members are invited and visitors will be welcome. W. H. Major is the teacher and Mrs. R. W. Dowdy, president.

Bridal Pair of September

Mr. and Mrs. James Oscar Brown, of Marion, S. C., whose marriage took place Sunday, September 1, at the Covenant Presbyterian church on Peachtree road. Mrs. Brown is the former Mrs. Maxine Wesley Bell, of this city. Staff photograph.

Prominent Visitors Will Be Honored By Mrs. Hickey

Mr. and Mrs. Floyd Jefferson Jr., of Short Hills, N. J., are numbered among the most important September visitors. They are guests of their cousin, Mrs. James E. Hickey, at her home on Wesley avenue, and will be feted at a series of social affairs during their Atlanta visit.

Mrs. Hickey entertains at a dinner-dance at the Piedmont Driving Club next Saturday evening in compliment to her guests. Mrs. Jefferson is the former Miss Eleanor Allen, grand daughter of Mrs. Henry S. Jackson. She is a niece of Robert F. Maddox, and is related to socially prominent Atlantans.

The marriage of Mr. and Mrs. Jefferson was a brilliant event of last spring, and took place in Noroton, Conn., the former home of Mrs. Jefferson, who has many friends here made upon frequent visits to Mrs. Hickey.

Tennille Weddings Are of Interest.

TENNILLE, Ga., Sept. 3.—A marriage of interest was that of Miss Eunice Tyson and Cecil Tompkins, which was solemnized Saturday afternoon, August 31, at the home of Rev. and Mrs. J. C. Saville, Rev. Saville, pastor of the Tennille Methodist church, officiating. The bride wore a full model of navy crepe ensemble with trimming of white. Her hat was blue and her accessories were white. She is the daughter of Mr. and Mrs. A. C. Tyson. Her father is judge of the district court and is a well-known merchant here. Her mother was before her marriage Miss Sally May Byrne and she is a niece of Mr. Charlie Byrne, of Tennille. The bridegroom is the son of Mr. and Mrs. Clarence Tompkins and a grandson of Mrs. John Bullard and Foster Tompkins. His mother was formerly Miss Alberta Bullard and his sisters are Mrs. L. W. Smith and Mrs. Elmer Anderson. He is a member of a family that has a wide connection throughout the county.

Miss Olga Bell Llewellyn and Reginald Dye, of Tennille, were married Saturday afternoon in Jeffersonville, with Rev. S. J. Faulk, pastor of the Baptist church, officiating. The bride is the daughter of Mr. and Mrs. H. D. Llewellyn, of Macon, her mother having been the former Miss Fannie Crump. She is a sister of Mrs. R. E. Aaron and Miss Dorothy Llewellyn, of Athens. The bridegroom is the son of Mrs. T. N. Dye, of Tennille, and the late Mr. Dye, and a member of one of the county's best known families. His mother was formerly Miss Berrie Doolittle and his sister is Mrs. C. M. Lacy, of Sardisville. The couple will reside here where Mr. Dye holds a position with the Washington Manufacturing Company.

Miss Mervin Morgan Weds Mr. McTyre.

THOMASVILLE, Ga., Sept. 3.—At 3 o'clock Saturday afternoon in the reception room of the nurses' home of the John D. Archbold Memorial hospital, Miss Mervin Morgan became the bride of Mr. Harry Edward McTyre, of Brooksville, Fla., formerly of Savannah.

The Rev. T. F. Callaway, of the First Baptist church, was the officiating minister, and the ceremony was witnessed by relatives and friends. The bride entered with her father, Hon. F. W. Morgan, of Americus, Ga. Her only attendant was Miss Olga Jernigan, maid of honor. The bride was beautiful in a navy blue triple crepe gown with accessories to match and wore a corsage of white roses and lilies of the valley. The groom was accompanied by James I. Futch, acting as best man. Mendelssohn's wedding march was played by Mrs. R. F. Poole Jr., of Americus, as the bridal party entered the room, and a pre-nuptial solo, "I Love Thee Truly," was sung by Miss Rosa Thompson, of Cairo, Ga.

Dr. and Mrs. McTyre left later for points in Florida, where they will spend a few days prior to going to Brooksville in that state to make their home. Dr. McTyre being permanently located there.

Mrs. McTyre is the daughter of Mr. and Mrs. F. W. Morgan, of Americus. She is a graduate of the hospital here. Dr. McTyre is a son of Dr. and Mrs. L. E. McTyre, of Savannah, and a recent medical graduate, having served for one year as interne in the hospital here. He is a member of a prominent Georgia family.

Miss Anderson Honors Miss Winifred Caldwell

Miss Martha Anderson gave a miscellaneous shower and seated tea yesterday at the home of Mrs. Henry Muench in Decatur, in compliment to Miss Winifred Caldwell, whose marriage to Eugene Blount, of Johnson City, Tenn., will occur Thursday at 4 o'clock at the home of Mrs. Davis Thornton in Atlanta. Miss Anderson was assisted by Mrs. Muench and Miss Amanda Muench.

Guests included Mesdames J. W. Finney, Albert Finney, J. P. Green, Allen Harlan, John Wright, Davis Thornton, Roy Kracke, John Hall, Henry Muench, J. Farmer, S. R. Christie Sr., Belle Lunsford, Elizabeth Caldwell, J. E. Anderson, J. D. Adams, E. M. Robertson, Misses Amanda Muench, Isabel Tappan, Lillie McAdams, Rose Clary, Mary Green, Lunde Sharpe, Louise Wallace and Mary Spear.

For Skins That Can't Take Powder

Red, scaly, coarse, wrinkled or greasy skins are horrible looking when covered with face powder, and this is why so many women are turning to the new Cu-Crema to correct an undesirable appearance. Cu-Crema, when used in place of powder and other cosmetics, takes out harsh redness, removes the shine and renders the skin beautifully clear, smooth and healthy. The beautiful finish does not dust off. Cu-Crema may be used without hesitation because it contains no harmful mercury, but is guaranteed to remove shine immediately and make your skin soft, smooth and lovely. It contains beneficial ingredients which beautify and invigorate the skin, eliminating the ugliness of large pores. Cu-Crema does not grow hair. Flesh, white and brunette. 50c at drug and department stores.—(adv.)

Miss Reilly and Mr. Mullings United at All Saints Church

The marriage of Miss Eileen Olga Reilly and Charles Grenville Mullings Jr. was solemnized yesterday afternoon at All Saints Episcopal church by the Rev. W. W. Memminger in the presence of relatives and friends. A floral arrangement, consisting of palms, foliage plants and baskets of Easter lilies, formed an attractive setting for the bridal party. David T. Bussey Jr. and S. K. Johnson acted as ushers. Mrs. B. O. Harmon, of Charlotte, N. C., was the bride's only attendant and John Merry served as Mr. Mullings' best man.

Mrs. Harmon was attired in powder blue fashioned over crepe to match. She wore a picture hat of blue to match her gown and carried a bouquet of peach-colored snapdragons. The bride, who was given in marriage by her father, Herbert G. Reilly, was an attractive figure wearing a gown of heavy white crepe trimmed with a yoke of exquisite white lace. The floor length skirt extended into a long train at the back. She wore a bride veil of illusion tulle reaching to a finger-tip length. The veil was fastened to her hair by sprays of orange blossoms. She carried a white satin prayer book, showered with valance lilies, which was carried by the bridegroom's mother at her wedding. The only ornament worn by yesterday's bride was an exquisite ivory-carved cross which belonged to her grandmother, the late Mrs. William G. McInnis, of Greenhurst, Ontario, Canada.

Mr. Mullings and his bride left immediately after the ceremony for a motor trip through the north Georgia mountains. For traveling the bride donned a printed crepe dress with the colors of black and white predominating. She wore a black felt hat and other accessories. Upon their return they will reside on Twelfth street.

Universalist Circles Will Hold Sessions.

As a feature of the Georgia Universalist convention to be held September 4-8, inclusive, at the Unitarian-Universalist church at 600 West Peachtree street, the Women's Union of the church and the several circles of the Universalist Women's Missionary Society of Georgia will meet in joint session at the church on Friday and Saturday. A business meeting will be followed by a memorial for recently deceased members. The address will be made by Helen Douglas, attorney-at-law, on "Child Labor."

Lakewood O. E. S.

The obligation ceremony will be observed by Lakewood Chapter O. E. S. No. 192, at its meeting Thursday evening at 8 o'clock, in Masonic temple, Lakewood Heights. An invitation is extended to all members of the order by Mrs. Clyde Moore, worthy matron, and Mr. E. F. Marquardt, worthy patron.

Decatur Social News

Is of Interest.

Misses Gena Glenn and Billy Davent, of Decatur, returned Monday from a visit to friends at St. Simon's Island.

Mrs. A. B. Burrus will be hostess Wednesday to members of her bridge club.

Mr. and Mrs. John Bell and family will return this week from a trip to Asheville, N. C.

Mrs. N. B. Harrison and grandsons, Ike Aiken Jr. and Harrison Aiken, of Brunswick, are visiting Mr. and Mrs. Clyde Walker.

Mrs. W. A. Saunders, of Key West, Fla., is visiting her parents, Mr. and Mrs. W. M. Thurman, on East Ponce de Leon avenue.

Mr. and Mrs. E. R. Sutton were hosts to friends at their cottage at Clayton, Ga., for the week-end.

Miss Catherine Glenn left Saturday for Eastman, Ga., where she is a member of the faculty of the Eastman school.

Mrs. Lawrence Everhart entertained members of her bridge club yesterday.

Master Kenneth Goady is improving from a recent illness.

Misses Mary Anne Connor and Martha Connor arrived Sunday from Charleston, S. C., and will spend the winter with their mother, Mrs. Mary D. Connor, on Church street.

I. T. K. Dance.

A dance was given by the I. T. K. frat society at the home of Miss Mona Debnam on Sixth street on Tuesday evening. Those present were Misses Mona Debnam, Nell Herrin, Dorothy Herrin, Sara Greer, Francis Hayes, Virginia Lyndon and Hugh Brown, Walter Debnam, John Whidby, Paul Christian, Ward Sachs, T. Y. Whitley, John Terry, Edward Cheek and Henry Stanford.

Young People's Leader.

Bess Miriam Robinson, of Tallahassee, Fla., was elected leader of the state young people of the Baptist Women's Missionary Society at a meeting of the executive board of that organization, which took place yesterday at the First Baptist church.

Surprise Dance.

An event in the social activities of the younger set was the surprise dance given Thursday evening at the home of Misses Shirley Makover and Harriet Sevelowitz, who leave this week for the University of Illinois, and Bernice Berman, who will attend Northwestern University. Ben Glusstrom entertained with songs and imitations and guests of honor were presented gifts.

Attending were Misses Harriet Sevelowitz, Shirley Makover, president of the Dozenette Club; Bernice Berman, vice president; Sarah Lipton, treasurer; Ruth Hillman, secretary; Yankee Sokol, of Birmingham, Ala.; Frances Kunisky, Dot Golden, Rachel Shamok, Marcia Lipman, Louise Asman, Phyllis Rosenblatt, Sylvia Kuniansky and Fred Gleason. Irving Lipton, Nathan Lipton, Sylvan Makover, Charles Abelman, Ben Glusstrom, Al Cristol, Gilbert Cohen, Bert Galanti, Dave Sims, Aaron Rose, Leo Eizenstat and Louis Zipperman.

Mann-Dimler.

The marriage of Miss Gwendolyn Mann, of Buford, Ga., and Fred Dimler, of Marietta, Tenn., took place March 15, in Chattanooga, Tenn. The bride is a graduate of Marietta College, and has taught several years in the public school system of Hall county.

Mr. Dimler received his A.B. degree from Marietta College and his M.S. degree from the University of Tennessee. He is now employed by the Blount County Board of Education as supervisor of elementary education. Mr. and Mrs. Dimler will reside in Marietta, Tenn.

FEATHER IN HER HAT

By Julie Anne Moore

INSTALLMENT XXV.

That was the way it went. The same questions over and over again. "Why can't they think up a new set of questions?" she asked after one of these sessions. "Do they think one of us killed Deane and sprouted wings and flew down to Washington and propped the body up in the chair and flew back to Boston? Can't they see we're telling the truth?"

As Ann and Rita were leaving the office one noon a man wearing a cap and dark glasses reached into the crowd in the corridor and caught Ann's arm. Rita was the first to recognize Lee, but when she was about to speak his name, he put his finger to his lips and shook his head. "I got it," Rita said. "Greta Garbo stuff. Well, children, this is where Rita gets the air, I suppose." "Do you mind?" Lee asked quietly. Rita said she did not mind and walked away, grinning.

"There's a sort of dugout up the street," Lee said to Ann. "It will be safer than a fustier restaurant—if you stand in it." "I'll stand in it," Rita said. "After 15 minutes of almost complete silence, they left the lunch room and Lee signalled a taxi. Ann protested that she hadn't time to go anywhere, but Lee got her into the taxi. "We're just getting out of the crowd," he said. They stopped at 17th and M streets.

Lee walked with his hands shoved deep down in the pockets of his coat. They were crossing L street before Lee spoke again. "Ann," he said, not looking at her. "I'm heading for home at 5 o'clock." Ann looked up. "For California?" He nodded. "Thought I'd try to set a new mark for the east-to-west trip. If nothing happens to prevent it, I'll have breakfast with my mother in Los Angeles."

Ann counted the lines in the sidewalk they crossed. After a time she said, "I'll miss you, Lee. You've been awfully nice to me." And then, moved by a generous impulse that was as much a surprise to her as to Lee, she told him, "I hope you'll tell your mother how sorry I am about what happened at the hospital. From her point of view, she was right, and I shouldn't have resented what she said."

"Funny," Lee smiled, "but mother says she was wrong. I was to deliver a message to you, but I've never had a chance."

Lee laughed. "They got the back of your coat and your hat. You'll never be recognized." And then, completing a job only half done, he pulled her to him and kissed her again.

It was Rita's night to get dinner and Ann, feeling unusually fagged, stretched out on the couch. She lay there now with closed eyes, thinking of Lee, of the ring she had not yet put on her finger.

How easy she had been. Planning for weeks what she would say when Lee brought up the subject of her conversation with his mother at the hospital—and then, being so completely disarmed that the ring box was in hand before she realized that Lee had no intention of clearing up the debris of the past.

To Lee, obviously, the past was of no consequence. Nothing had mattered to him but that they resume where they had left off. He had said as much in their few minutes together in Boston. "As far as I'm concerned, we're just where we were, Ann." She should have been warned by that, but she had been too busy fortifying herself against what she saw as an inevitable attempt on Lee's part to explain his mother's attitude, to try to persuade her that she had been unfair in breaking off their engagement without even offering any reason for it.

Ann had no doubt of Lee's love for her. That troubled her most, for she knew that however long and earnestly she tried she could never care for him in the way that he wanted and had a right to expect. She respected him and liked him very, very much. She was proud of the fact that he was in love with her, that of all the girls he knew he had chosen her for the greatest adventure of his life. But as his wife, that was not enough. She should love him as he loved her, as she loved him. Her will to put him out of her life, definitely and permanently, cut across her consciousness and left the thought of him hanging like a severed thread. But no amount of thinking, of self-analysis could quite explain her action to her own satisfaction. Many things accounted for her quiet surrender. She had been unfair. There was no doubt of that. Her behavior at the hospital after that little talk with his mother had been constantly on her conscience. There had been influence by the attitude of Mollie and Bill. Perhaps they both had looked upon her engagement to Lee as an achievement on her part, but whereas Mollie had rejoiced wholly out of her fondness for Ann, Bill's approval had been forced and involved by a sense of loyalty to Lee.

But whatever the reason for it, Ann knew that when she let Lee put the little ring box in her hand and offered no protest, she had given her promise, finally and irrevocably, and that when he came for her she would go with him.

UNCLE RAY'S CORNER

CARLSBAD CAVERNS.

When someone speaks of "Carlsbad," we think of a city in Czechoslovakia which is famed as a health resort. It contains hot mineral springs which many persons have found helpful in curing certain kinds of disease.

There is another Carlsbad, however, a little city in southeastern New Mexico.

Later explorers have proved that the caves and underground passages have a length of at least 25 miles. In 1930 the American government made the region a national park.

The Big Room is more than three-quarters of a mile long and the widest part measures 625 feet. In some places the ceiling is 300 feet high—there is enough space for men to build a 25-story building.

Tall stalagmites rise from the ground, and long stalactites hang from the ceiling.

Water dripping from the ceiling has built these objects during the thousands of years. As it drips, the water leaves tiny bits of hard substance behind, and these bits from the cones which hang from above. Other bits are left below, after the water drops and turns into vapor.

Some of the stalagmites would weigh many tons if cut off at the base and placed on scales. It is safe to say that such a thing will not be done. Nature took a long period—some say as long as a million years—to make the cones; and they are of such beauty and interest that they will be left where they are.

(For Nature section of your scrapbook.)

"Rome and the Olden Romans" will be mailed without charge to readers who send me a 3-cent stamped, return envelope. This leaflet contains pictures and stories which will help history students and Latin students.

Tomorrow—Living "Tuddy Bears." (Copyright, 1935, for The Constitution.)

The Big Room and other chambers

Mexico. It contains mineral springs; but its fame has grown in recent years because it is within range of what is probably the world's largest cave.

Long ago, people knew about an interesting cave not many miles from Carlsbad, N. M. It contained thousands and thousands of bats, so many that it seemed just about "filled" with the mouse-like flyers.

The "Bats' cave" still exists. It is large, as compared with many caves; but it is not nearly so large as the "Big Room" which was discovered later.

Club Announces New Members At Progressive Dinner Party

A progressive dinner was the unique attraction given by members of the B. C. secret social club last evening. The congenial group began their festivities with cocktails served at the home of Miss Harriet Milam, at 12 South Prado, from whence they adjourned to the home of Miss Raynor Grant on Howell Mill road for the main dinner course. Salad was enjoyed at Miss Barbara Mallett's home, and the dessert course was served at Miss Barbara Greene's. Dinner was concluded with coffee served at Miss Frances Holliman's home on Sixth street.

During the elaborate course at Miss Grant's home a musical program was furnished, and an announcement of the new officers for the coming year was made. They are Misses Raynor Grant, president; Barbara Greene, vice president; Susan Spratt, secretary; Barbara Mallett, treasurer, and Emma...

PERSONALS

Mr. and Mrs. Joel C. Harris Jr., Mr. and Mrs. Edwin Camp, Dr. and Mrs. Frank B. Boland and Mr. and Mrs. W. C. Wardlaw will spend the week-end with Mr. and Mrs. Evelyn Harris at Hawks Hall, their summer home at Highlands, C.

Mr. and Mrs. Floyd Jefferson Jr., of Short Hills, N. J., are visiting Mrs. James E. Hickey at her Westley avenue home. Mrs. Jefferson is the former Miss Eleanor Alsop.

Mrs. Herman Moll, of North Highland avenue, has returned from a visit to Macon.

Miss Louise Bull, of Greenville, S. C., is visiting Miss Mildred Grant at her home on Palisades road in Brookwood Hills.

Miss Marguerite Sanders has returned from Savannah Beach, where she visited friends.

Mrs. Henry Johnson has returned to her home on N. Charles avenue after a visit with Mr. and Mrs. Willard R. Leach at their summer home, Tuckahoe, on Lake Sequoyah, at Tate Mountain Estates.

Mrs. Julian Harris leaves today for Chattanooga, Tenn., where she will establish her future residence. Mr. Harris departed for Chattanooga several weeks ago.

Dr. J. Calvin Weaver will return tomorrow from Anderson, S. C., where he spoke yesterday at a meeting of the Southeastern Surgical Congress.

Mr. and Mrs. Charles Romines and little daughter, Ann Vickers, have returned from Jacksonville, Fla., where they were guests of Mr. and Mrs. Herndon Drewry. Prior to a trip to Florida, Mrs. Romines and her daughter visited New Orleans, La., and Biloxi, Miss., where they were the guests of Mr. and Mrs. Edward Yuger.

Mr. and Mrs. Claude Williams, of Orlando, Fla., announce the birth of a son on August 30 at the Orange General Hospital in Orlando, where Mrs. Williams is the former Miss Louise Plowden, of Atlanta.

Mrs. Lillian Rogers Gilbreath returns tomorrow from Los Angeles, Cal., where she visited her mother, Mrs. M. H. Rogers, for a month.

Mr. and Mrs. James Engel have returned to Savannah after several days with Mr. and Mrs. R. L. Grant Sr.

Miss Nora King has returned from a vacation spent at Virginia Beach, Richmond, Williamsburg and other points of historical interest in Virginia.

Mr. and Mrs. C. L. McGhee, of Richmond, Va., are visiting Dr. and Mrs. J. L. McGhee on Clifton road in Druid Hills.

Philip Latta will attend Wake Forest College in North Carolina during the forthcoming year.

Mrs. M. F. Gerow has returned to her home in West End after spending several weeks in Asheville, N. C.

Mrs. Harry N. S. Jones, of Key West, Fla., with her children, is visiting her mother, Mrs. W. M. Spratt, on Blue Ridge avenue.

Atlantans spending the week-end at High Hampton Inn and Country Club, Cashiers, N. C., were Dr. and Mrs. S. D. Gausemeier, Mrs. Anna R. Payne, Mr. and Mrs. Steve Clay, Mr. and Mrs. F. H. Quentim, Mr. and Mrs. J. E. Boyd, Alton Coddell, Miss Eleanor Harrison, Miss Yvonne Andrey, Miss Elizabeth Spalding, Douglas Robertson, V. W. McKinney, J. E. Warren, Miss Mary Warren, C. W. Slack, Mr. and Mrs. H. W. Indell, Mr. and Mrs. A. O. Mitchell.

Miss Ellen A. Reilly has returned from Oklahoma City, Okla., where she has visited her cousins, Dr. and Mrs. W. L. Bonham and Colonel Debe Duvall.

Mr. and Mrs. J. Max Little left yesterday for St. Louis, Mo., where they will reside in future. Mrs. Little is the former Miss Louise Toepel, daughter of Dr. and Mrs. Theodore Toepel, of this city.

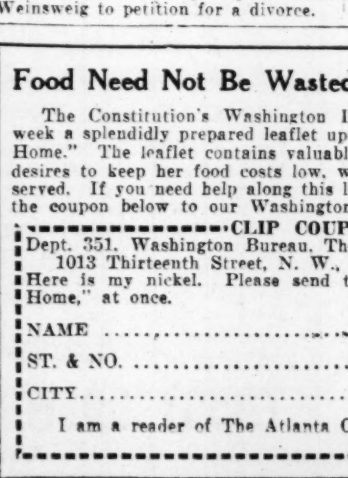

Miss Scott Meador has returned from Anniston, Ala., where she visited Miss Louise Roberts at her home on Sunset drive.

Miss Elizabeth Hancock has returned to Atlanta after spending the summer in Cartersville, Ga.

Miss John Bowie left Sunday for Washington, D. C., to visit her sister and brother, Mr. and Mrs. Adam W. Jones. Miss Bowie will be joined in Washington by her sister, Miss Virginia Bowie, who spent August at her cottage in Blowing Rock, N. C. Before returning to Atlanta, Misses Virginia and John Bowie will go to...

Whitens, Clears The Skin Quickest Way

No matter how dull and dark your complexion; no matter how freckled and coarsened by sun and wind, NADINOLA Cream will whiten, clear and smooth your skin to new beauty, quickest, easiest way. Just apply at bedtime; NADINOLA, tested and trusted for over a generation, begins its beautifying work while you sleep. Then you see day-by-day improvement until your complexion is all you long for; creamy white, satin-smooth and lovely. No disappointment, no long waiting for results. Money-back guarantee. At all toilet counters, only 50c. Or write NADINOLA, Box 42, Paris, Tenn.

Friendly Counsel

By CAROLINE CHATFIELD

Dear Miss Chatfield: The last eight years of my life have been spent in a hell that my own mother made for me. She refused to let me go to college though she could have well afforded to send me. Then to crown it all I had an unfortunate love affair and instead of showing me some sympathy when I needed it, she assumed the "I told you so" attitude which made me heart sore. She takes my pay check each week, doing out one dollar to me and then talks about my being in debt to her for boarding at home. I am bitter and unhappy. Won't you say what you think about this and tell me what I should do?

Answer: There is a type of female unloveliness that all the rest; it is the woman without tenderness. The man that marries her, the children she brings into the world, go through life hungry and unhappy so long as they have to depend upon her for sympathy and loving kindness. She is hard and cold and cruel. She is the wife who quarrels with her husband when he doesn't produce enough to supply her with what she thinks she is entitled to. She is the mother who is irritated with her child when he falls down and hurts himself. She is the woman who can pass by a shivering, shaking beggar without batting an eye. She is one of nature's deformities.

A scholar once wrote of Renan that he possessed "a tenderness without which there is no understanding of the human spirit." You, my dear girl, have for a mother a woman who has no understanding of and consequently no sympathy with the joys or sorrows of her heart. So long as you remain under her roof, you will get just what you are getting now; your pockets picked, your pride humbled, your feelings hurt and all your ambitions thwarted. If you have to live in a two or four room, eat your meals at drug stores and 10 cent store counters, wear \$2.98 dresses and 98 cent shoes you will be much happier separated from her. So get out and from under her. Not by means of a row and a break, for after all she is your mother and if you cannot give her affection, you owe her a measure of respect. You don't want to leave home in such a way that you cannot come back on a visit. You don't want to burn the bridges behind you that will separate you finally from your family and your childhood's home. You don't want to be guilty of a sin.

Let your experience with her be a lesson to you when you are married and have children of your own. Remember that life and food and clothes and keep and education are what you owe them and beyond that, if you are to have their affection, have them feel about you as you would like to feel about your mother. You must recognize all these things as your just dues and give them. In addition, that warm sympathy and tenderness without which the heart of a normal child is hungry.

Let your experience with her be a lesson to you when you are married and have children of your own. Leaders of Historic Ball

Mrs. Kenneth O'Brien, wife of Justice O'Brien, of Southampton, L. I., and Thomas Paine, of Atlantic City, at the historic ball at White Sulphur Springs, W. Va. Jefferson Davis, president of the Confederate States of America, was chairman of the first ball, held in 1873. Mrs. O'Brien is wearing a crinoline gown in which she led the grand march with Henry Waters Taft, of New York. Photograph by Cummins, White Sulphur Newsphoto.

Birthday Party

Mrs. Hubert M. Hudgins entertained recently at a birthday party at her home on Woodland avenue, honoring her son, Ronald Lamar Hudgins, who celebrated his sixth birthday anniversary. Guests were Elaine Hudgins, Betty Jane Johnson, Peggy Jo Allen, Jane Cook, Madeline Bennett, Jessie Lewis, Faye Stevens, Lucile Carter, Barbara Chilton, Jacqueline Jones, Joyce Jones, Louise Poole, Grace March, Eloise Shope, Louis Flatley, Herman Chafin, Bernard Flatley, David Floyd, Bobby Wright and Harry Le Gette.

Things That Make Women More Beautiful

Hail the New Cuticle Oil and a Cream Nail Polish Without Color!

By MIGNON.

There seems to be a growing tendency among ladies, to discard the vivid nail polish. Even if one's nails are well cared for and shiny, it is always somewhat of a shock to me, to be talking to a woman and to have my attention violently drawn to her nails that strike at me like blood-stained hands. They are all right fashionably speaking, so don't jump on me for saying this, and any woman who wants to wear them, let them come to do so. She will not be out of fashion—yet. But I venture to say that in a little while she will be. More and more the shock of violently colored nails is curing the habit.

One of the best makers of cosmetics has brought out a small jar of polish, white and about the consistency of cold cream, which you rub with the tip of your finger, run over the nails and then buff with a good buffer.

The polish, the strangest consistency for a nail polish that I have seen, doesn't dry the nails, and it whips into a bright shine in no time at all.

With this cream, the manufacturer has brought out a small bottle of cuticle oil, which has attached to the cork, a tiny brush—the same as liquid nail polish brushes. You paint the nails and cuticle with oil to soften them. I like to use this at night.

scrub the nails in the morning and then polish.

Incidentally the new polish has in it something that takes care of the dead cuticle.

The only thing I complain of is the fact that manufacturers make a delightful product and then stick it into a tiny tin box, as big as a quarter, not high enough for you to get a good hold on the box. I've dropped so many of these modest cases, which are made of something light, that once the cover starts to roll—just try to stop it. But they are made to carry in purses, and stick away in corners and I suppose they have to be small. They contain plenty of cream and plenty of rouge or whatever the manufacturers put into them, but I'd like them if they had false bottoms, making them hold-onable.

The cream polish is not expensive, and you better trot along with the times and buy yourself a jar. They are just out, brand new, and in the few days they have been on the market, prove that they are going to go over big.

If you want to know where you can purchase any article mentioned in this column please Mignon at The Constitution. Please do not write unless you live outside the city, in which case enclose a stamped, self-addressed envelope.

Culbertson on Contract

By ELY CULBERTSON

World's Champion Player and Greatest Card Analyst

Double Begets Double

The habit of bidding in a fast moving auction sale or a free bidding contract game is equally contagious. And perhaps the most contagious of all the bids is the double. Once the doubling starts in good earnest, it is rare that a final contract is played undoubled.

With partner showing every evidence of a strong hand, East was unable to resist the temptation to double on his five trumps in today's deal. Yet, although the defense was perfect, declarer could not be prevented from scoring the nine tricks for which he had contracted.

East-West vulnerable. Part score, 60.

West, dealer.

♠ A K 6
 ♥ A 8
 ♦ 9 6
 ♣ Q 9 6 4 3 2
 ♠ Q J 10 7
 ♥ A Q 8 5 4
 ♦ A 8 5
 ♣ 10 8 5 3
 ♠ K 6 4 3 2
 ♥ K 7 3 2
 ♦ K
 ♣

The bidding: (Figures after bids refer to numbered explanatory paragraphs.)

West North East South
 1♣ Dbl. (1) Pass 1♠
 2♦ 3♠ (2) Pass 3♥
 Dbl. (3) 3♠ Dbl. (4) Pass
 Pass Pass

1—A light takeout double, due to East-West's advanced score, North's short major suits make a two club overall preferable.

2—Compelled to rebid to protect the score, North now regrets having doubled originally, since he cannot afford to be based on only three trumps, and declarer accordingly assumed West's opening lead to be a singleton, particularly since, after winning the king in dummy and leading a club which West won with the ace, the trumps were not continued.

West returned the queen of hearts which was won by dummy's ace, and the queen of clubs cashed, declarer discarding a diamond. A club lead was ruffed in the South hand, the king of hearts cashed, and a low heart trumped in dummy. Now another club was played from dummy and East, realizing the futility of trumping, discarded a diamond. South won this trick with the spade eight and played his last heart which dummy ruffed with the ace. East discarding his last diamond. A fifth round of clubs found East compelled to trump but to no avail. If he trumped with the jack, South's ten would be high. When he trumped low, South overhauled the ten. The crooked one had thus enabled declarer to score his nine tricks and South's remaining losers were doubly won by West's high diamond and East's three trumps. Unfortunately for East, West, winning the same trick twice counts no more than once.

HAND OF TOMORROW.

South, dealer.
 East-West vulnerable; part score 60.

Mr. Culbertson will send to any reader who will enclose a self-addressed, stamped (3-cent) envelope with his request, a booklet containing the new rules, discussing changes in the rules and discussing the etiquette of Contract. The request should be addressed to Ely Culbertson, in care of The Atlanta Constitution.

RETURN OF CONVICT MAY NOT BE ASKED

DeKalb Police Seek Information From Detroit on Captured Fugitive.

DeKalb county police were waiting yesterday to learn what charges, if any, Detroit police have against a negro identified as C. B. Wise, an escaped convict, before they decide whether to seek his return.

The main question, they said, rested on whether Detroit had any charges against the negro, said to have escaped from the DeKalb county jail in 1930, that would keep him "out of circulation" for some time. He was serving two years in DeKalb county on burglary charges, police said.

In addition there are several highway robbery charges hanging over him, they said. He also was sought in connection with the wounding of Patrolman Ray Francis several years ago. Francis, now dead, recovered from the wound, but succumbed to a heart attack several months later. Francis was a former Cracker pitcher.

Sweaters Rate More Than Passing Grade at College.

One of Claire Lacey's best friends had been at college for the past two years. Claire had chosen the same college as Wilma. And now they were deep in conversation regarding the best clothes for Claire to take.

Wilma sat back and visualized all the girls she had seen on the campus during the past two years.

"And for goodness sake, take along plenty of scarves. We wear them tied ascot fashion, cowl like, cowboy style, any way at all, but we do wear scarves. They are usually bright and gay and point up the outfit. What do I mean by pointing up? Oh, give an accent to the outfit."

"Lots of the girls are tying back their hair with hair ribbons. I think it's silly myself but they are doing it loosely. Lots of the girls wear felt riding hats, when they wear any hat at all. Their favorite shoes are ghillies and they wear woolen underwear when they go to football games. Bring along a few shirtwaist dresses and plenty of shorts because we spend a lot of time getting tanned. The halter blouse of a kerchief is what we wear with shorts. Oh, you'll love it when you get there, but oh how you'll hate—no, I guess I won't tell you. I'll let you find out for yourself." And no begging would get Wilma to finish the sentence.

Lillian Mae Patterns

Styles by Annette

315

COOL SEERSUCKER ROBE. HOME OR BEACH.

In summertime it's always so useful to have a robe that is both comfortable and the one patterned for today. It may be worn for home or beach.

It's a joy to wear of cool gay plaided seersucker, and it washes so beautifully. It won't crush, so is therefore ideal to include in the week-end or travel wardrobe.

In striped cotton toweling in solid color as blue or green with white, it is also jaunty.

For indoor wear, all kinds of washing silks, rayons, prints, mercerized cottons, etc., will be nice for this easily made robe.

Style No. 315 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 3 1/2 yards of 25-inch material.

Summer Fashion Book contains many more smart, cool vacation clothes. Order your copy today!

Price of book 15 cents. Price of pattern 15 cents. Wrap coin carefully.

Mail orders to Annette Pattern Department, The Constitution, Atlanta, Georgia.

SEVERE EARTHQUAKE SHAKES CITY IN INDIA

QUETTA, India, Sept. 3.—(P)—An earthquake of severe intensity was felt here at 4:20 p. m. today. It lasted for 15 seconds. No damage was reported.

Quetta, known as the "City of Death," was devastated by an earthquake which caused 26,000 deaths last May 31.

FRESH SINKING SPELL SUFFERED IN U.S. BONDS

Corporate Offerings Are
Dull and Irregular at
Close of Day.

Daily Bond Averages.

(Copyright, 1935, Standard Statistics Co.)
 Tuesday, Sept. 3.—Following are the daily averages of the new U.S. government bonds (dollars and cents) for the week ending Sept. 3, 1935.
 Tuesday, Sept. 3.—Following are the daily averages of the new U.S. government bonds (dollars and cents) for the week ending Sept. 3, 1935.
 Tuesday, Sept. 3.—Following are the daily averages of the new U.S. government bonds (dollars and cents) for the week ending Sept. 3, 1935.

By G. A. PHILLIPS.

NEW YORK, Sept. 3.—(P)—A fresh sinking spell in United States government bonds following publication of the terms of conversion for the fourth 4-14 per cent Liberties dominated interest in the listed market today.

Losses in government obligations were uniform and ranged from 2-32nds to 1-32nds, with the great majority of active issues finishing in the higher brackets. Corporate bonds were dull and irregular.

A sudden revival of interest in the fourth 4-14 Liberties, which have been dormant for several weeks, was the first reaction of the investment community to the government's terms announced last night. The issue was the most active in the government list and finished lower at 100-25, a new low for the year and nearly four full points away from the 1935 peak of 104-16.

Early reports for the terms of conversion and the \$500,000,000 "new money" involved in the deal, by making the new issue relatively short term, the majority of those who commented believed the operation would be entirely successful and that the 1-12 per cent notes due in 3-12 years would prove to be the more attractive of the two issues.

The corporate divisions gave a highly indifferent performance. Fractional changes were the rule with the occasional outstanding movement breaking the monotony. Theater and amusement company bonds were the strongest of any group, coincident with the firmness of the market.

Foreign loans were comparatively steady, with the exception of renewed weakness in Italian bonds, which yielded another 1 to 2 points. South American loans were especially firm following reports from Lima that the Peruvian government would consider the resumption of its dollar bonds when things get better economically. Polish and French government bonds likewise were firm.

The Associated Press averages ranged from 2 of a point higher to 2 of a point lower. Transfers aggregated \$9,150,000 last Friday, compared with \$8,862,000 last Friday.

Market Outlook

NEW YORK, Sept. 3.—(P)—The government's \$1,750,00

LITTLE IS KNOWN OF SWINDLE HERE

Boris Duner Taught Music in Atlanta, But Police Have No Record.

Boris Duner, alias Boris Duner, alias Boris Smolinski, held in Memphis, Tenn., after allegedly confessing the swindle of an Atlanta

woman, was employed in Atlanta at the Atlanta Conservatory of Music and left there suddenly, it was learned yesterday.

Before working at the conservatory, as a piano teacher, Duner served with the Jewish Educational Alliance, it was said. He left the Jewish Alliance to serve at the conservatory.

Little was known about him at the time of his residence in Atlanta at a considerably later date than the 1927 quoted in Memphis by Chief of Detectives Will Griffin.

The Atlanta detective department said it had not received a report of a jewel theft, such as was described by the Memphis officer. A search of the files was made yesterday morning, and contained no information of any \$15,000 theft as outlined by the Memphis detective, according to Assistant Chief of Police A. Lamar Poole, in charge of detectives.

The Memphis department has not communicated with Atlanta authorities.

Duner, according to Memphis dispatches, is alleged to have obtained the diamonds by posing as an employee of a well-known New York jeweler. The name of the woman from whom he allegedly stole the diamonds was not revealed by the Memphis officer, who claimed he had promised not to reveal her name.

HOLIDAY DEATHS PASS 300 IN NATION

California Leads Other States With Total of 41 for Week-End.

By the Associated Press.

Deaths in the holiday traffic of the holiday week-end exceeded 300 in the nation, an Associated Press compilation disclosed late (Tuesday) night.

Late records showed 309 fatalities, still short of the predicted "350 to 400" deaths which the National Safety Council estimated as the nation's probable toll for "death's favorite holiday."

Other accidental deaths, notably drowning, added to the loss.

California continued to lead the states, with 41 deaths, three caused by a plane crash Sunday night. Two of the fatalities were in the Los Angeles area.

The three-day week-end was marked by the following fatalities in other states:

New York, 24; Illinois, 21; Pennsylvania, 20; Missouri and Ohio each 18; and Michigan, 15.

Ten deaths were reported each in West Virginia, Oklahoma and Iowa. The record was kept close, however, in the District of Columbia and the states of Arizona, Delaware, Florida, Louisiana, Mississippi, Nebraska, Nevada, North Dakota and South Dakota.

Widespread rain over Labor Day, tending to reduce the volume of traffic, and safety campaigns were credited with checking the mortality list.

Post-Rogers Crash Believed Caused By Nose-Heaviness of Pontoons

Crosson Quotes Famous Flyer as Telling 'Cowboy' Actor To Sit as Far to the Rear as Possible on Take-offs on Account of Weight in Front.

WASHINGTON, Sept. 3.—(AP)—A suggestion that a plane made nose-heavy by pontoon equipment sent Wiley Post and Will Rogers to their death in Alaska was contained today in a Commerce Department report on the accident.

Eugene Vidal, air commerce chief and writer of the memorandum issued by the department, said Joe Crosson, the pilot who brought the bodies back to the United States told him of this trouble.

"Mr. Post substituted for his wheel landing gear a pair of pontoons at Seattle and after being joined by Will Rogers, proceeded to Alaska from that point. At Fairbanks, Alaska, Post informed Crosson, of Pan-American Airways, the airplane had become nose-heavy on takeoffs and landings following the installation of floats, and that on take-offs, he had instructed Rogers to sit as far to the rear as possible, and also to keep the equipment and the luggage well aft."

At Fairbanks, Post and Rogers discussed with Crosson and others their proposed flights, and it was apparent they had no actual schedule, no set plans, and no particular reason for departures and arrivals at any place on any certain dates. Post remarked that in their flying about Alaska, under no circumstances would he fly with Rogers in or above any cloud or fog bank. His plan was to travel as safely as possible by so-called "contact flying," turning back and landing in lake or river at any time when the weather made it dangerous to proceed. It was because of this attitude or policy that their reported inability to weather reports could not be considered careless.

No Radio Equipment.

Pan-American Airways base personnel at Fairbanks checked the plane and the motor and declared everything in good order, with the exception that a generator failure eliminated self-starting the motor, thus making it necessary to start the motor by hand. The plane had no radio equipment and Post was navigating by compass and map.

Prior to their departure from Fairbanks a weather report from Point Barrow was requested. This report hadn't been received when they were preparing to depart. Post decided they would start out and if the weather proved unfavorable, would land on some lake, of which there were many, or river, and wait until conditions had improved. The weather report arrived at Fairbanks at 1:30 p. m. and read "zero-zero."

It was reported later that weather conditions improved and at the time of the arrival of Post and Rogers at the lagoon near Point Barrow, a radio report from Inspector Hall, of the Bureau of Air Commerce, located in Alaska, also, I visited Point Barrow from Fairbanks in order to return the bodies to this country. Inspector Reed, of the Department of Commerce, who licensed the airplane at Glendale, Cal., and others who had contact with Post and Rogers, know, I traveled to Los Angeles in order to discuss with Mr. Crosson the probable causes and any other details which might have aided in determining such causes of this crash.

Well Constructed.

Inspector Reed, one of our representatives in Los Angeles, informed me he had inspected at Glendale almost daily the alterations of the original Orion 9E airplane which Post had purchased in February, 1935. Inspector Reed, as a result of his regular and frequent inspections, was satisfied with every detail from a construction standpoint. He told me that as to workmanship it was a "splendid job."

Mr. Reed did not fly the airplane, but watched Post's test flights and discussed with him its flying characteristics, which by the way, were pleasing to Post. The department could not issue a "C" license for the plane because of the fact a wing from another type of plane, a Sirius, had been substituted for the regular Orion wing and a larger motor, oil gas tanks had been installed. The plane was granted an "R," or restricted license. Mr. Post at various times expressed satisfaction over the plane's flying characteristics, particularly its stability, balance and ease of maneuverability.

Plane Nose-Heavy.

Mr. Post substituted for his wheel

French Reef Abounds In Danger to Mariners

MIAMI, Fla., Sept. 3.—(AP)—A variety of dangers—sharks, alligators, quicksand and a deceptive surf menace mariners who attempt a landing in the treacherous waters where the liner Dixie is imprisoned.

Large schools of sharks and swordfish are found in the vicinity of French reef. Alligators live on the shores of rock, sand and coral. A warning against landing except as a last resort is made by the United States Coast Pilot.

"Under no circumstances should masters attempt to land through surf in their own boats, until the last hope of assistance from shore has vanished," the Pilot says.

"Often when a comparatively smooth sea at sea, a dangerous surf is running which is not perceptible 400 yards off shore; and the surf when viewed from vessel never appears as dangerous as it is."

ly almost 200 feet, which was the lower level of the fog mark. The near perpendicular hosing-in of the plane and its turning over on its back would indicate an altitude higher than 50 feet had been gained prior to its stalling.

Many Chances For Stall.

It is possible to see the Dixie in the darkness that has settled over the stormy sea. The 11 passengers aboard the Platano are waiting anxiously to witness the thrilling rescue.

Through squalls of rain and mist from mountainous waves the Dixie was visible intermittently earlier to night about three miles off our starboard bow.

Four Rescuers Wait.

Three other vessels are also here, waiting calmer seas to begin taking passengers off. It is impossible at present to make the rescue owing to the heavy weather.

We sighted the Dixie at 2 o'clock this afternoon and have been in sight since. The most of the time, although off and on, the motor failure and the airplane's nose heaviness, could result in such a stall.

The reef is about two miles north of the Dixie. The cause of the motor failure, the motor being buried in the mud under some two feet of water. We are inclined to believe that with the spray from the water in taking the day, and the temperature as it was reported, ice could have developed in the carburetor. Either that, or the spray from the water in taking the day could have entered the scoops and in that way caused ice.

CAPTAIN OF DIXIE TO STAND BY SHIP

Wife, Daughters of Veteran Seaman Keep Vigil in New York.

NEW YORK, Sept. 3.—(AP)—Fearing that Captain Einar William Sundstrom had been lost in a sinking ship, his wife and two daughters kept a sleepless vigil tonight.

"Father is a seaman of the sea," said his daughter Lillian, 24, said, "He has always said that if his ship ever went down he would go down with it. That is why we were so worried. Now that we know the ship is not likely to sink we feel easier."

Mrs. Sundstrom expressed faith in her husband's ability to save the ship. "In 40 years of the sea, Einar's never lost a ship," she said. "He won't begin now."

Neither she nor her daughters—the other is Florence, 17—has been able to sleep or eat since word of the Dixie's plight.

"He will be the last to leave his ship," his wife said. "He has often been reported lost, and once was missing for a week, when caught in a bad storm in 1927, but he came through all right."
